APPENDIX C

User Manual

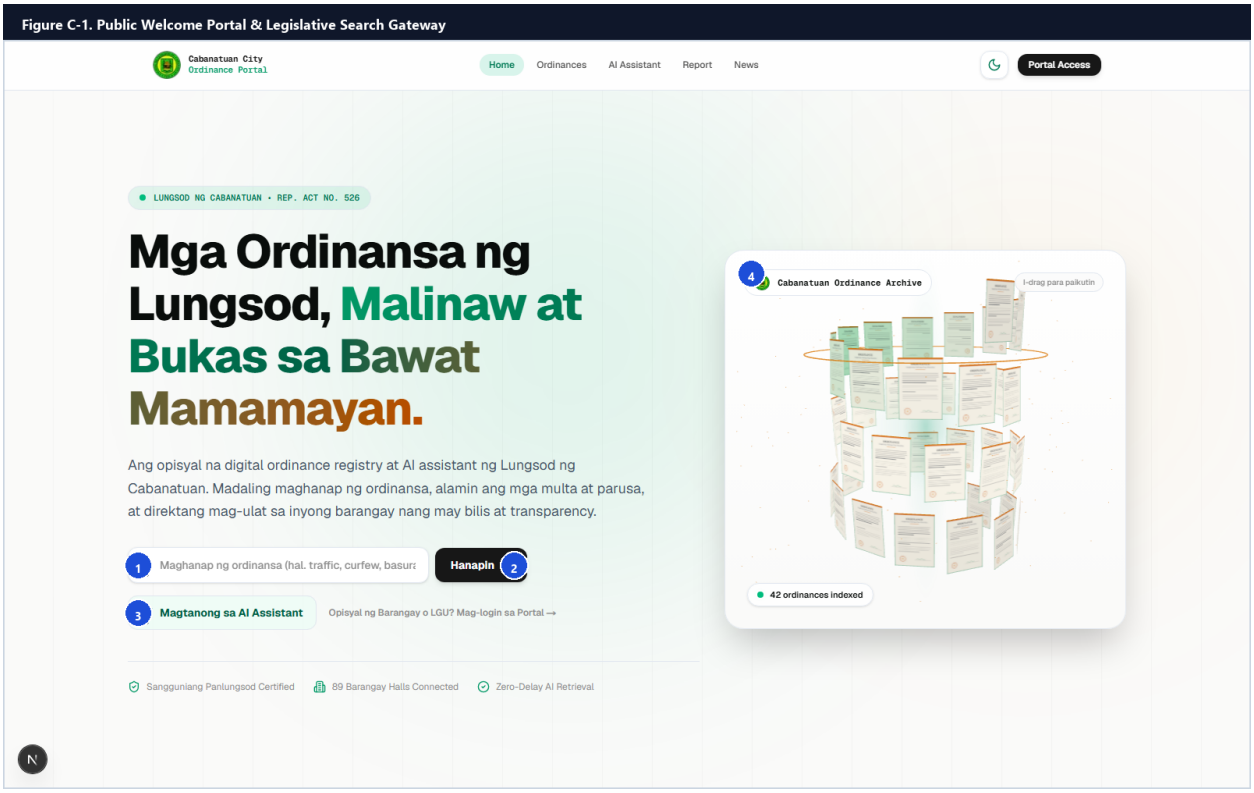

Cabanatuan City Ordinance & Legislative Portal

Public Access & Legislative Discovery

What the Public Welcome Portal & Legislative Search Gateway Is For

The public welcome portal serves as the primary municipal gateway for Cabanatuan City's digital legislative repository. It provides unrestricted, zero-barrier public access for citizens, researchers, and local business owners to discover enacted city ordinances, municipal tax codes, traffic regulations, and public health policies without requiring prior account registration. The interface incorporates real-time full-text indexing, spatial 3D document visualization, and instant shortcuts to AI-assisted legal advisory tools. An essential architectural feature of this gateway is its strict public privacy boundary; internal administrative workflows, pending legislative deliberations, law enforcement sensitive reports, and barangay official contact directories remain inaccessible until an authenticated session is established.

Figure C-1.
Public Welcome Portal & Legislative Search Gateway

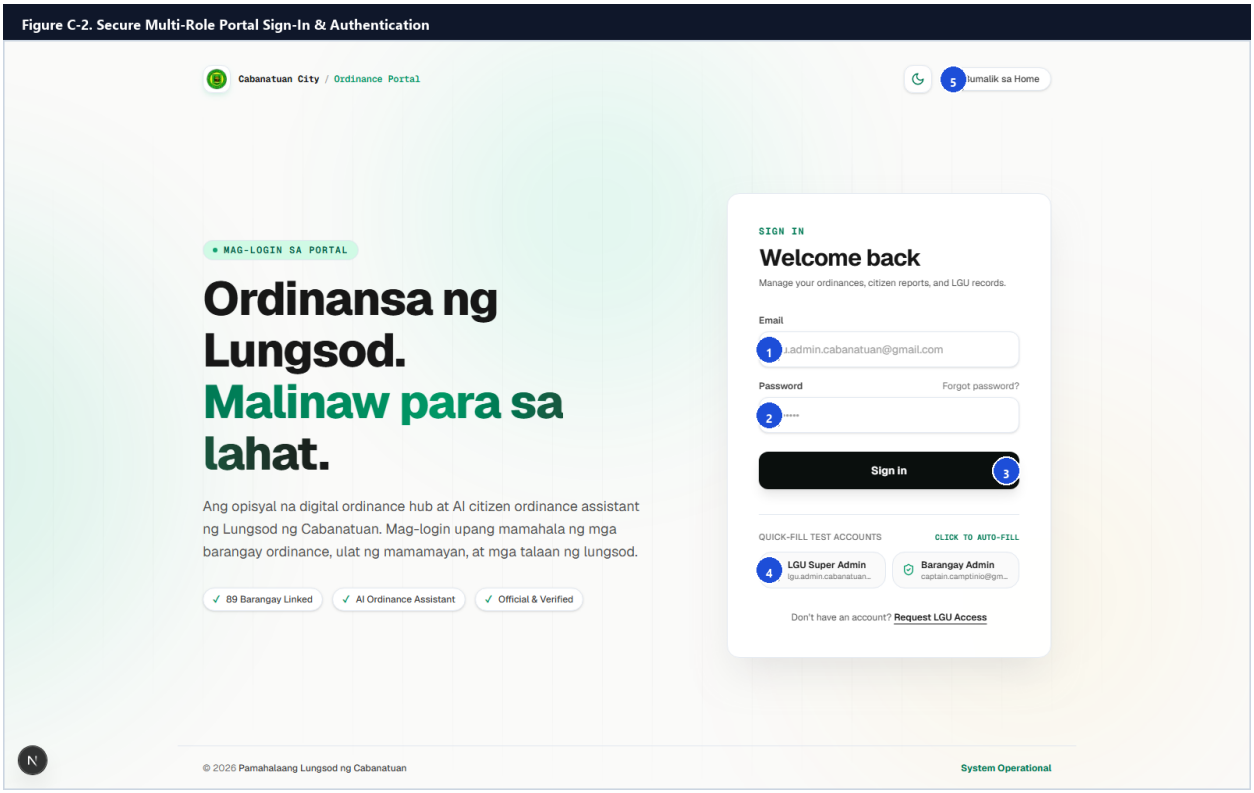

No.	Field, Control, or Area — Detailed Technical Description
1	**Hero Ordinance Search Input Field —** Text input field equipped with instant keyword matching. Citizens enter common topics, legal terms, or keywords (e.g., 'curfew', 'waste segregation', 'business permit', 'tricycle fare') to initiate legislative discovery across the municipal repository.
2	**Search Execution Action Button —** Primary search execution button styled with high-contrast emerald civic branding. Submits active keyword parameters to the search engine and seamlessly transitions the citizen into the categorized Ordinance Explorer interface.
3	**Ask AI Legal Assistant Action Button —** Dedicated action button providing 1-click routing into the conversational AI Legal Assistant interface, allowing citizens to formulate natural-language legal inquiries in conversational Tagalog or English.
4	**Interactive 3D Ordinance Archive Canvas —** Three.js hardware-accelerated 3D cylinder archive visualizing 42+ indexed municipal ordinances. Enables citizens to interactively rotate, inspect, and spatially browse legislative enactment volumes chronologically.

Account Access & Authentication

What the Secure Multi-Role Portal Sign-In & Authentication Is For

The portal authentication interface controls authorized access to restricted administrative modules, including legislative proposal drafting, ordinance review and ratification, and community incident triage. Built with Role-Based Access Control (RBAC), the authentication service validates government personnel and assigns security contexts corresponding to LGU Super Administrators, Barangay Officials, and Registered Citizens. Confidential government records, audit logs, and citizen whistleblower reports are strictly guarded behind session tokens.

Figure C-2.
Secure Multi-Role Portal Sign-In & Authentication

No.	Field, Control, or Area — Detailed Technical Description
1	**Official Email Address Input Field —** Validated input field capturing the official government or registered citizen email address. Implements live format checking and whitespace trimming to prevent authentication errors.
2	**Encrypted Password Input Field —** Masked credential input field securing passwords during entry. Enforces secure character masking and interacts directly with backend cryptographic hashing algorithms.

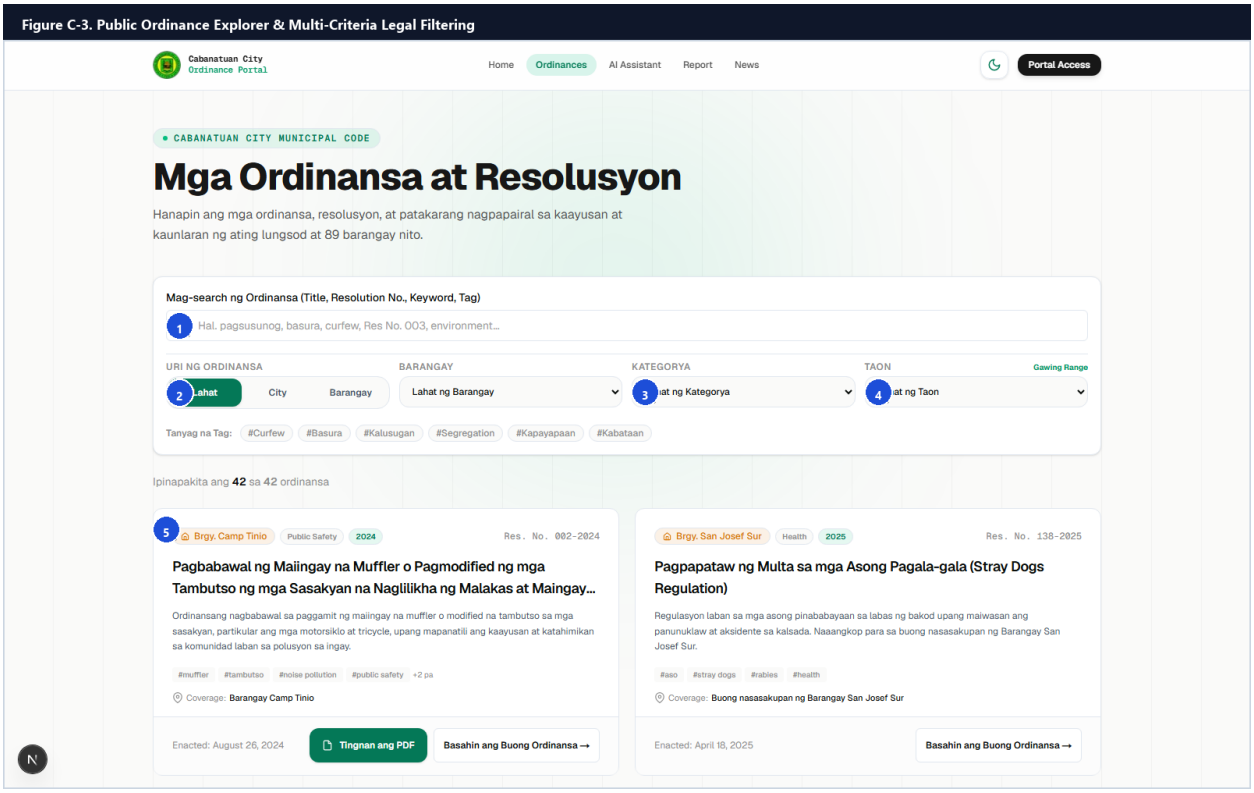

No.	Field, Control, or Area — Detailed Technical Description
3	**Sign In Primary Action CTA Button —** Primary authentication trigger authenticating entered credentials against Firebase Auth. Upon successful token verification, the system inspects custom claims and routes users to their respective governance console.
4	**Quick Role Preset Access Chips —** Pre-configured demonstration credentials allowing authorized evaluators and officials to rapidly test system workflows across LGU Superadmin, Barangay Official, and Citizen security tiers with a single tap.
5	**Return to Public Portal Navigation Link —** Direct safe-exit navigation link allowing unauthenticated visitors or citizens to return to the public search gateway without modifying session state.

Public Legal Search & Discovery

What the Public Ordinance Explorer & Multi-Criteria Legal Filtering Is For

The Public Ordinance Explorer represents the central discovery portal for municipal law. Citizens can filter hundreds of enacted city regulations and barangay resolutions through a multi-faceted search architecture. The explorer provides instant keyword matching, jurisdiction segmentation, category sorting, and enactment year filtering to help residents find applicable laws quickly.

Figure C-3.
Public Ordinance Explorer & Multi-Criteria Legal Filtering

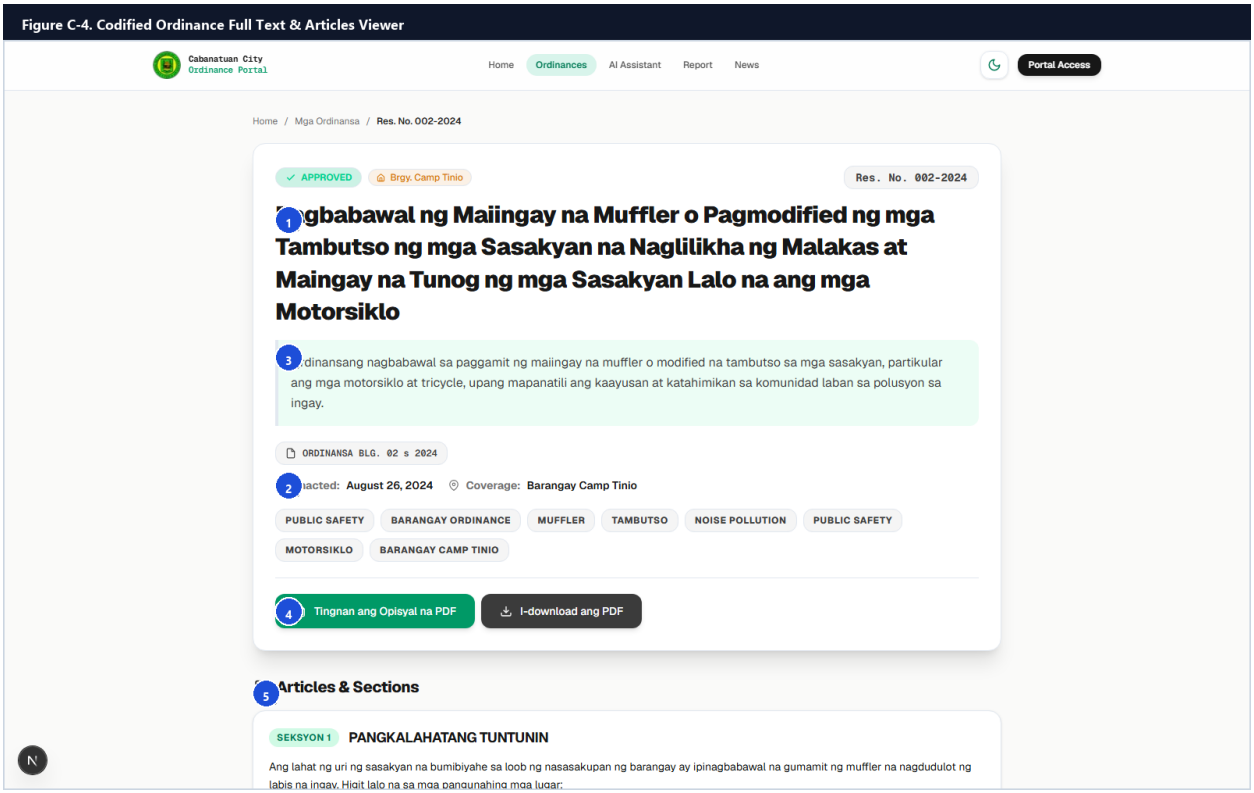

No.	Field, Control, or Area — Detailed Technical Description
1	**Full-Text Legal Search Input Field —** Real-time search field querying ordinance titles, official resolution numbers, executive summaries, and enacted provisions with live debounced filtering.
2	**Jurisdiction Scope Segmented Switcher —** Segmented filter buttons allowing citizens to toggle search scope between 'Lahat' (All Laws), 'City Ordinances' (Sangguniang Panlungsod enactments), and 'Barangay Resolutions' (local council measures).
3	**Policy Category Filter Dropdown —** Dropdown selector categorizing legislation into civic policy domains including Traffic & Transportation, Solid Waste Management, Curfew & Youth Welfare, Health & Sanitation, and Fiscal Revenue.
4	**Legislative Enactment Year Dropdown —** Chronological dropdown filter allowing researchers to isolate ordinances passed in specific municipal legislative years from 2018 to 2026.

No.	Field, Control, or Area — Detailed Technical Description
5	**Interactive Ordinance Result Card —** Responsive legislative preview card showcasing ordinance number, official title, category tag, enactment date, plain-language digest, and direct link to the codified detail record.

What the Codified Ordinance Full Text & Articles Viewer Is For

The codified ordinance view presents the authoritative legal text of an enacted measure in a modern digital reader format. Rather than forcing citizens to decipher complex legal terminology in dense scanned PDFs, the system parses the document into structured articles, sections, and penalty provisions, accompanied by an executive summary.

Figure C-4.
Codified Ordinance Full Text & Articles Viewer

No.	Field, Control, or Area — Detailed Technical Description
1	**Official Ordinance Title & Resolution Number —** Header displaying the authoritative legislative title, certified resolution number, and sponsoring council committee.

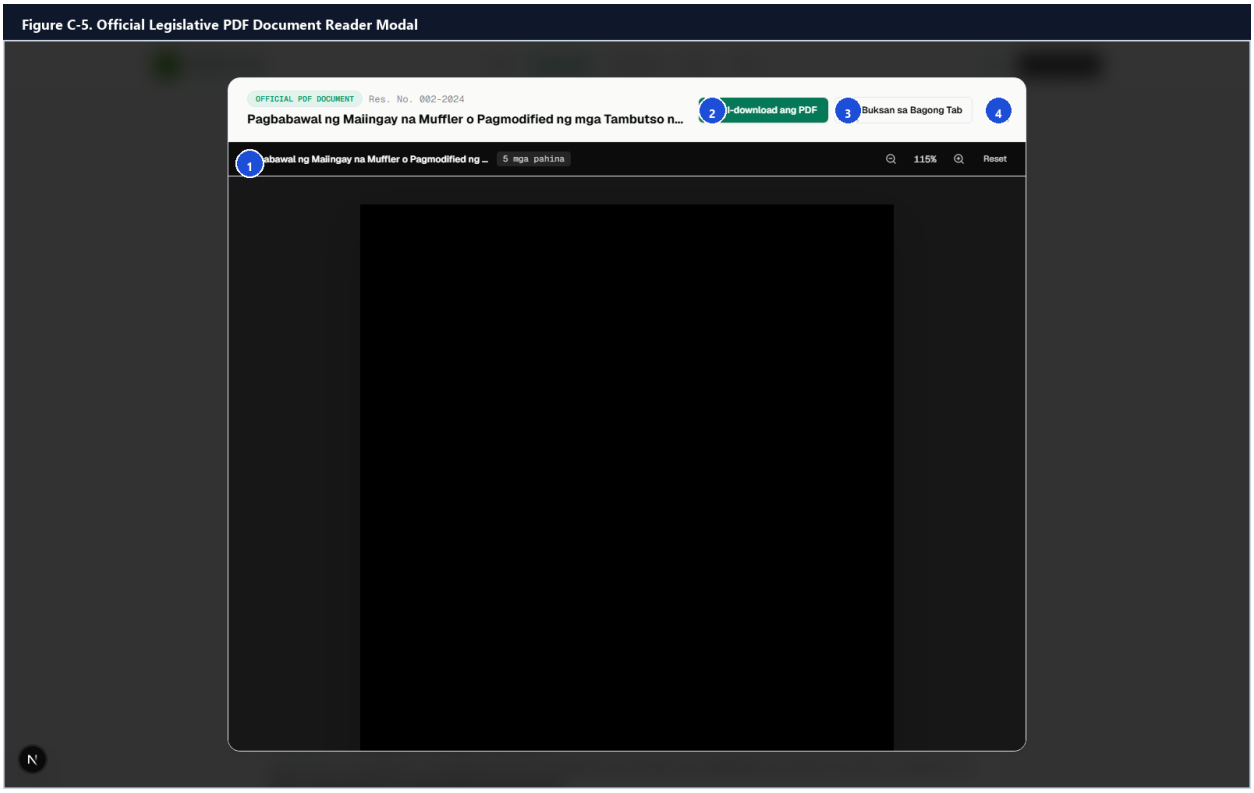

No.	Field, Control, or Area — Detailed Technical Description
2	**Legislative Metadata Bar —** Metadata banner indicating the date of third-reading enactment, mayoral approval timestamp, and jurisdictional coverage across Cabanatuan City.
3	**Executive Legal Summary & Plain-Language Digest —** Citizen-centric overview summarizing the purpose, community scope, obligations, and citizen rights established by the ordinance in non-technical terms.
4	**View Official Scanned PDF Action Button —** Primary action button launching the embedded official signed PDF document reader modal for certified legal inspection.
5	**Codified Articles & Sections Hierarchical Accordion —** Expandable legal section tree allowing users to browse individual codified articles, specific mandates, prohibited acts, and monetary/custodial penalty clauses.

Document Verification & Official Assets

What the Official Legislative PDF Document Reader Modal Is For

The official document reader modal delivers certified verification of municipal legislation. When official evidence or legal citations are required for court proceedings, business licensing, or academic research, citizens can inspect the original scanned municipal document bearing the official seal and wet signatures of the City Mayor and City Secretary.

Figure C-5.
Official Legislative PDF Document Reader Modal

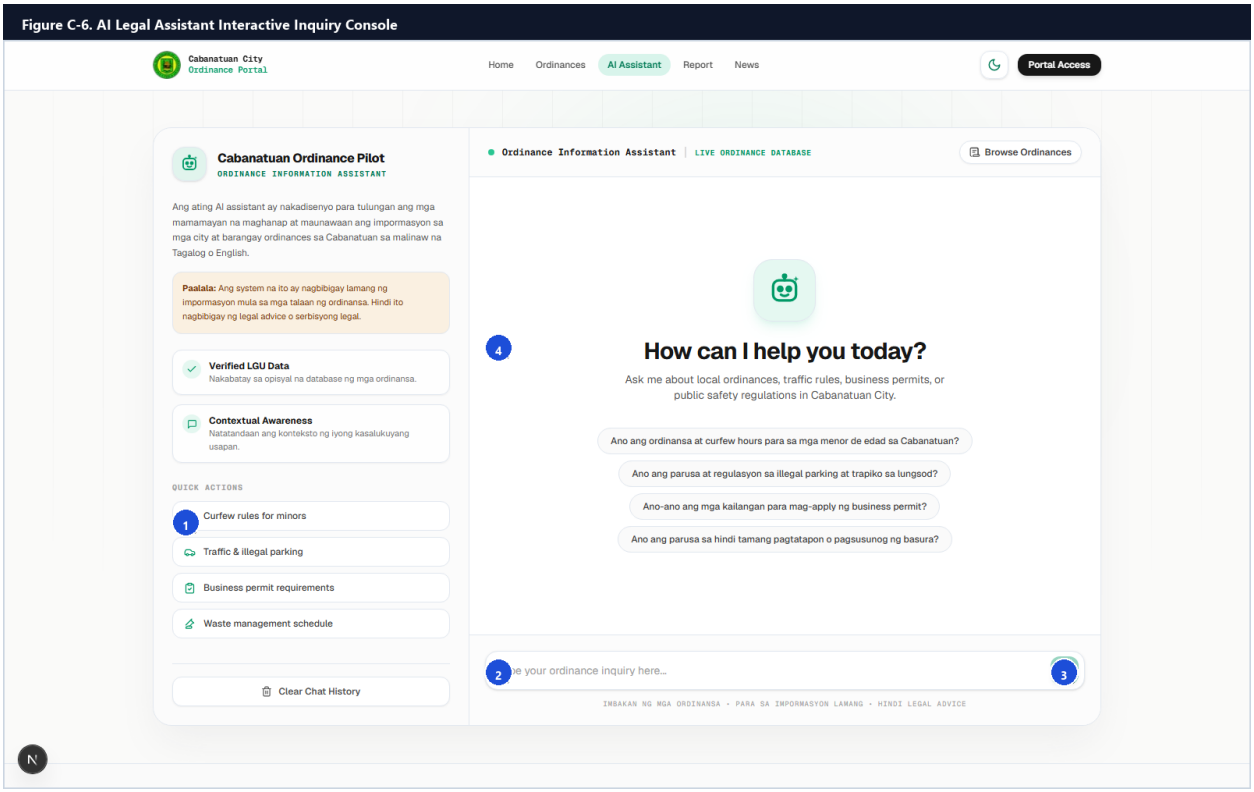

No.	Field, Control, or Area — Detailed Technical Description
1	**Embedded Digital PDF Document Canvas —** Hardware-accelerated PDF canvas rendering the authentic signed and sealed municipal ordinance document with pan, zoom, and multi-page navigation.
2	**Direct PDF File Download Action Button —** Action button allowing citizens to download the official PDF file directly to their local workstation or mobile device for offline reference.
3	**Open in Dedicated Full-Screen Tab Button —** Navigation trigger opening the raw PDF asset in an isolated browser tab, enabling native browser print workflows and external annotation.
4	**Modal Dismiss / Close Action (Esc) —** Close trigger safely terminating the reader modal and returning the citizen to the active ordinance detail workspace.

AI-Powered Legal Advisory Services

What the AI Legal Assistant Interactive Inquiry Console Is For

The AI Legal Assistant employs Google Gemini multimodal intelligence paired with a Retrieval-Augmented Generation (RAG) pipeline over Cabanatuan City's codified ordinances. Citizens can ask practical questions in everyday language, and the assistant returns clear, verified explanations citing the exact ordinance and article numbers.

Figure C-6.
AI Legal Assistant Interactive Inquiry Console

No.	Field, Control, or Area — Detailed Technical Description
1	**Preset Quick Action Inquiry Buttons —** Curated prompt chips allowing citizens to query common legal concerns (e.g., 'Curfew para sa kabataan', 'Bawal bang mag-videoke sa gabi?', 'Tamang tapunan ng basura') with a single click.
2	**Bilingual Question Input Field —** Text input area accepting conversational prompts in Tagalog, English, or Taglish regarding municipal rules, fines, and administrative procedures.
3	**Send Inquiry Execution Action Button —** Action trigger transmitting the query to the server-side RAG engine for vector similarity retrieval and grounded response generation.

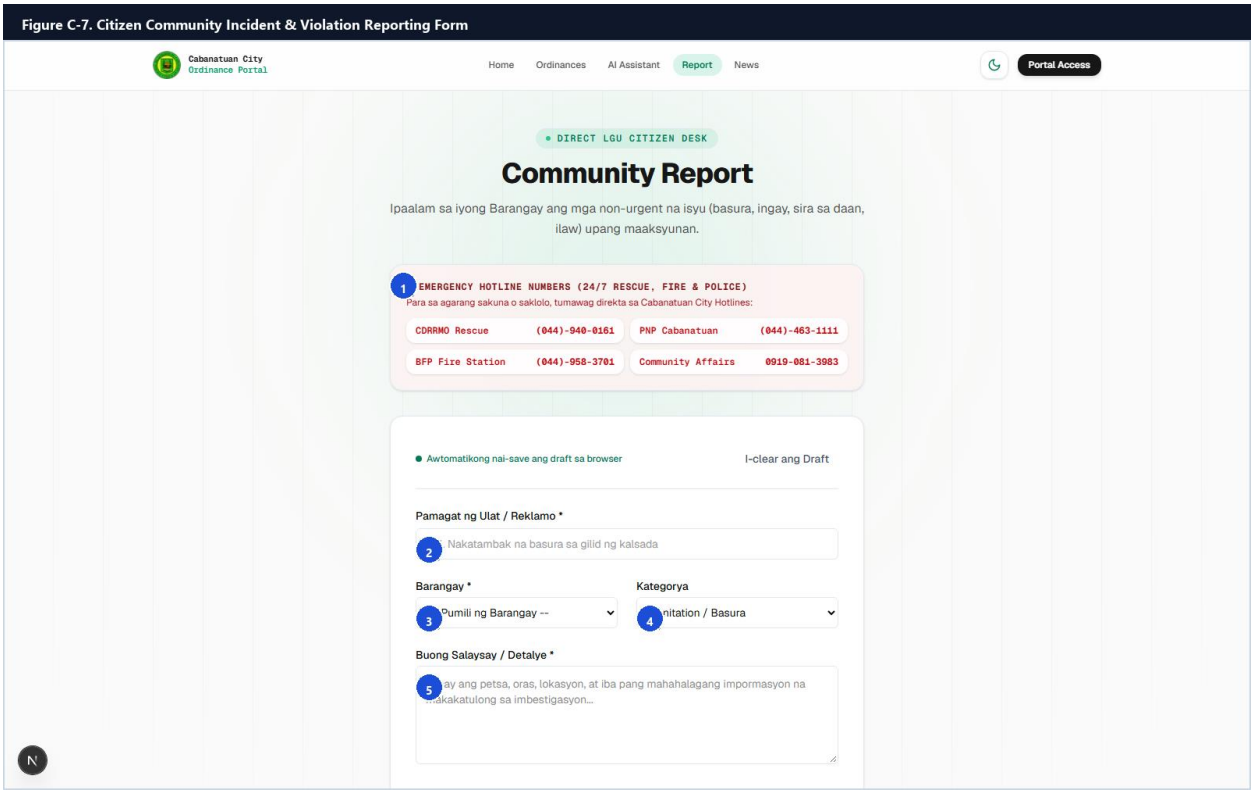

No.	Field, Control, or Area — Detailed Technical Description
4	**AI Legal Analysis & Verified Citation Feed —** Conversational response container presenting synthesized answers with statutory article references, specific fine schedules, and official ordinance titles.

Community Grievance Reporting & Civic Action

What the Citizen Community Incident & Violation Reporting Form Is For

The community incident reporting system empowers Cabanatuan residents to actively participate in local governance by reporting non-emergency neighborhood violations directly to their respective barangay councils. This interface digitizes community grievances, routing them instantly to barangay triage desks.

Figure C-7.
Citizen Community Incident & Violation Reporting Form

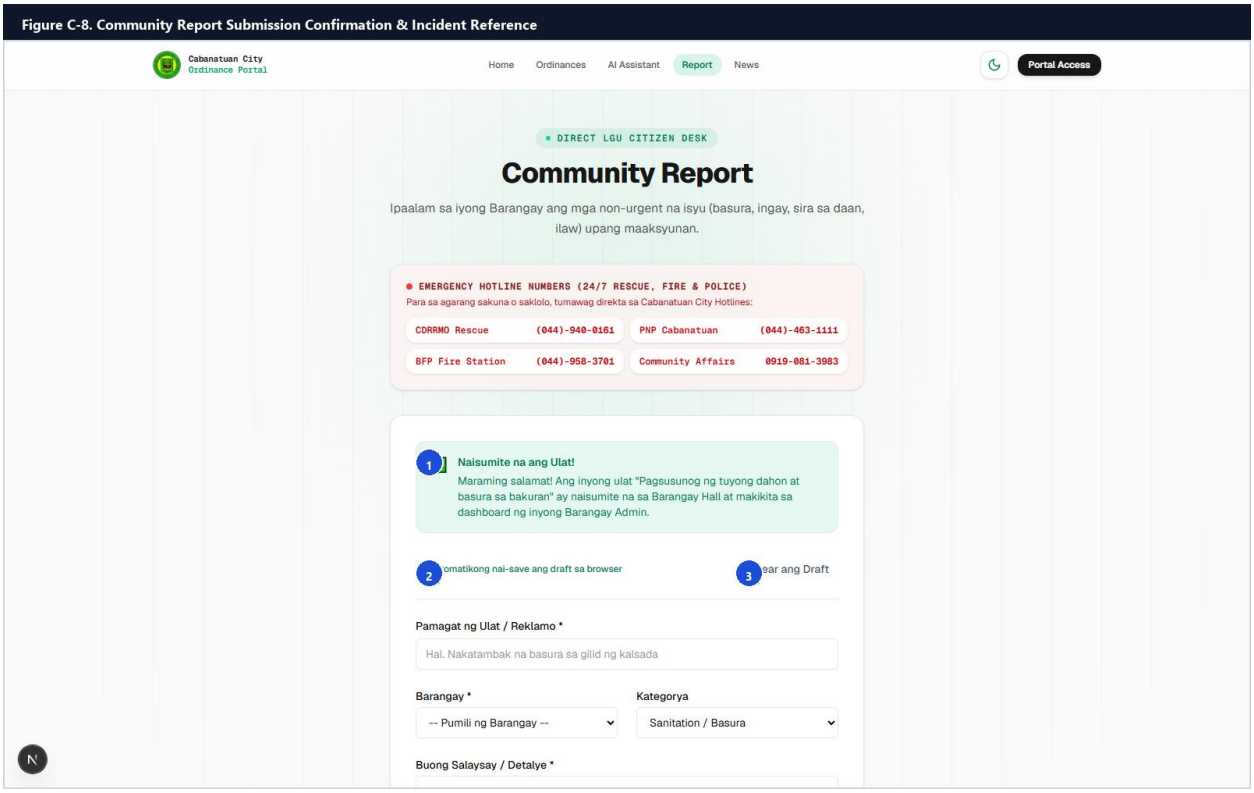

No.	Field, Control, or Area — Detailed Technical Description

No.	Field, Control, or Area — Detailed Technical Description
1	**Emergency Hotline Numbers Banner —** High-visibility alert panel detailing 24/7 emergency dispatch numbers (CDRRMO, PNP Cabanatuan, BFP Fire Station) for urgent life-safety situations.
2	**Incident Subject / Title Input Field —** Single-line text field capturing a concise headline of the community concern (e.g., 'Nakatambak na basura sa tapat ng paaralan').
3	**Assigned Barangay Jurisdiction Dropdown —** Mandatory dropdown mapping the complaint to one of Cabanatuan City's 89 barangays, establishing local jurisdictional responsibility.
4	**Incident Category Selector Dropdown —** Classification menu grouping complaints into Sanitation/Waste, Noise Disturbance, Public Right-of-Way Obstruction, Youth Curfew, or Other.
5	**Incident Narrative & Location Details Textarea —** Multi-line narrative textarea capturing full incident context, exact street landmarks, recurring hours of violation, and observed circumstances.

What the Community Report Submission Confirmation & Incident Reference Is For

Upon successful incident report submission, the portal provides immediate verification to the citizen. This confirmation confirms delivery to the barangay council and establishes accountability for local investigation.

Figure C-8.
Community Report Submission Confirmation & Incident Reference

No.	Field, Control, or Area — Detailed Technical Description
1	**Official Submission Confirmation Alert Banner —** Alert banner verifying successful transmission of the community report to the designated Barangay Hall dashboard.
2	**Draft Auto-Save Status Bar —** System indicator confirming that browser local draft storage has been safely cleared following successful server persistence.
3	**Reset & Clear Form Action Button —** Action button resetting form state and clearing input fields to allow residents to log another incident report if needed.

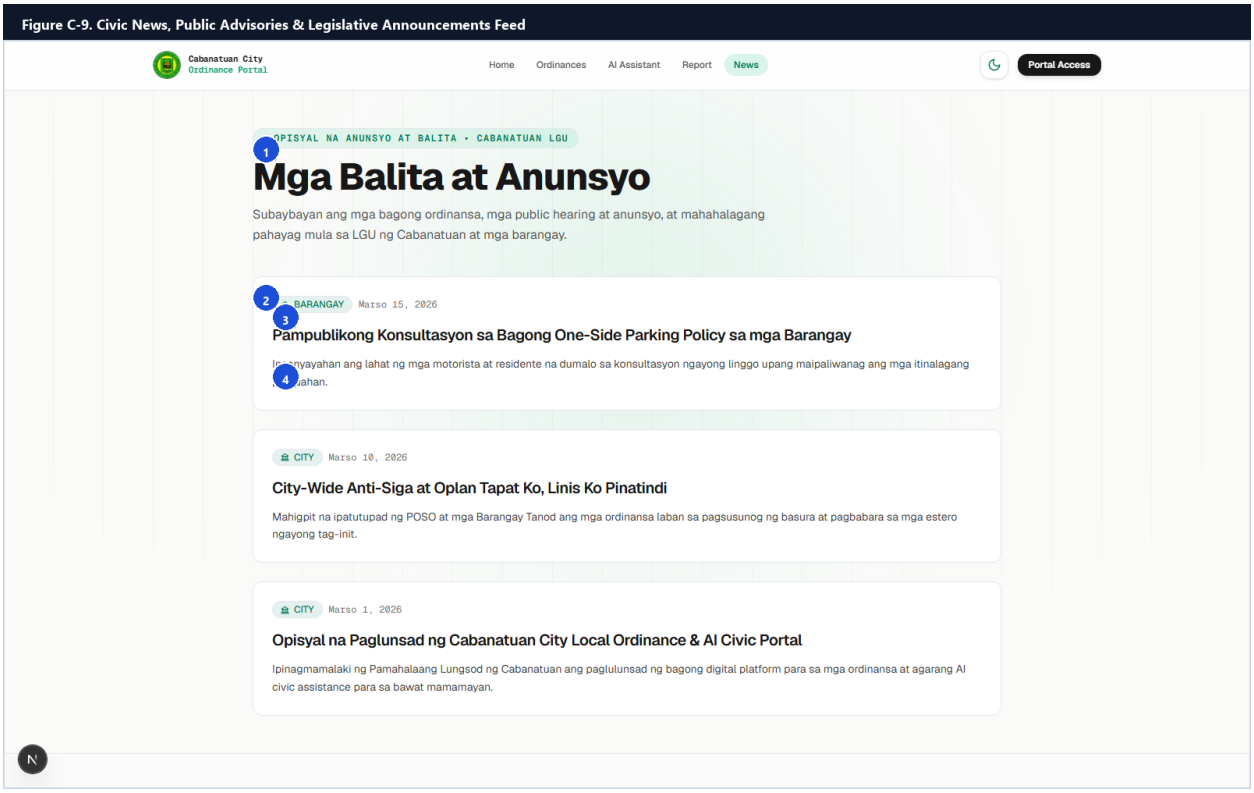

Civic Information & Public Communications

What the Civic News, Public Advisories & Legislative Announcements Feed Is For

The Civic News feed delivers real-time official municipal announcements, public hearing advisories, newly ratified ordinance notices, and executive orders directly to the public, preventing misinformation.

Figure C-9.

Civic News, Public Advisories & Legislative Announcements Feed

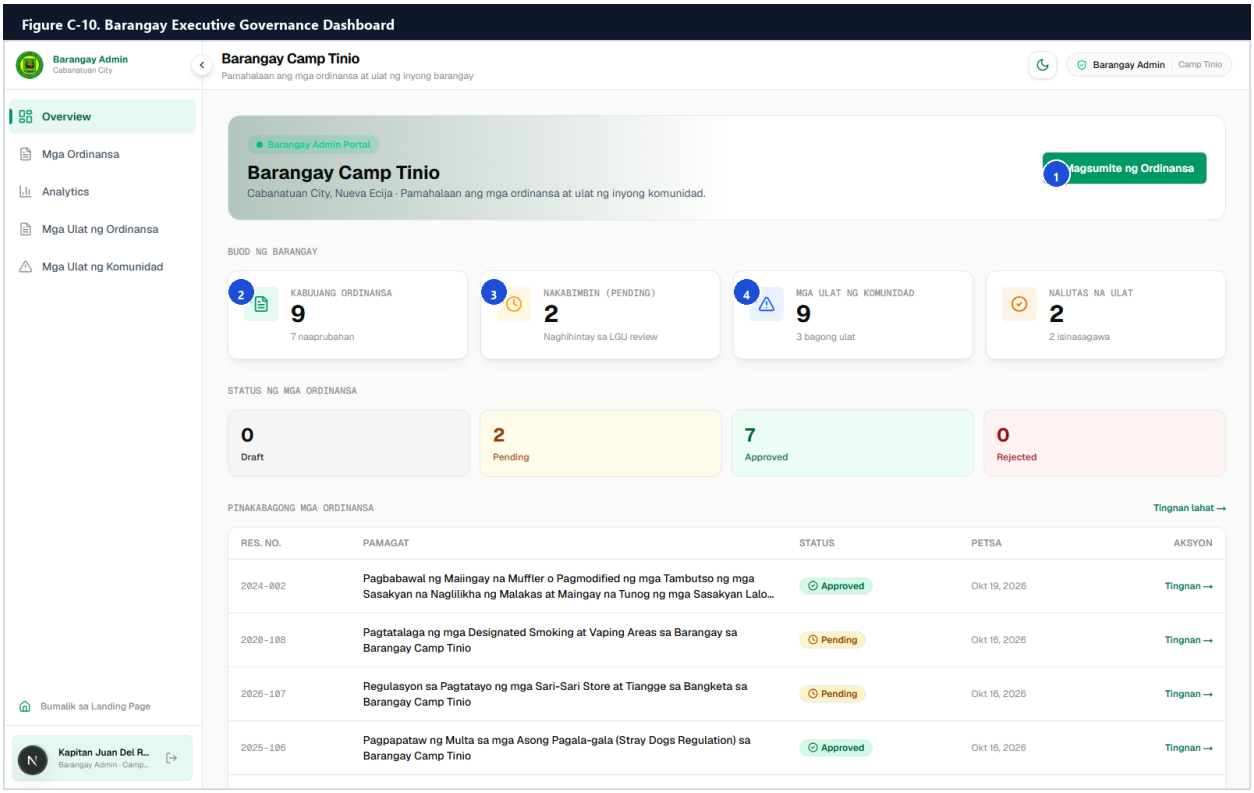

No.	Field, Control, or Area — Detailed Technical Description
1	**Official LGU Public Authority Badge —** Authoritative badge verifying that published advisories originate from authenticated Sangguniang Panlungsod and City Mayor desks.
2	**Official Executive Advisory Card —** Card container housing publication details, category classification tag, and headline for prominent municipal updates.
3	**Publication Date & Civic Category Badge —** Attribution banner showing official posting date, sponsoring barangay or department, and functional category.
4	**Executive Directive Content Narrative —** Detailed body narrative of the advisory providing directives, compliance deadlines, implementation procedures, and public instructions.

Barangay Governance Console

What the Barangay Executive Governance Dashboard Is For

The Barangay Executive Dashboard provides local village officials with a real-time operational overview of their community's legislative output, pending city approvals, and resident grievances.

Figure C-10.
Barangay Executive Governance Dashboard

No.	Field, Control, or Area — Detailed Technical Description
1	**Submit New Ordinance Quick Action Button —** Primary call-to-action button launching the digital ordinance registration and drafting workflow for local council measures.
2	**Local Enacted Ordinances Metric Card —** Real-time KPI card tracking the total count of officially enacted and codified barangay ordinances.
3	**Pending Legislative Proposals Metric Card —** Status metric card highlighting legislative drafts currently submitted to the Sangguniang Panlungsod for legal review.

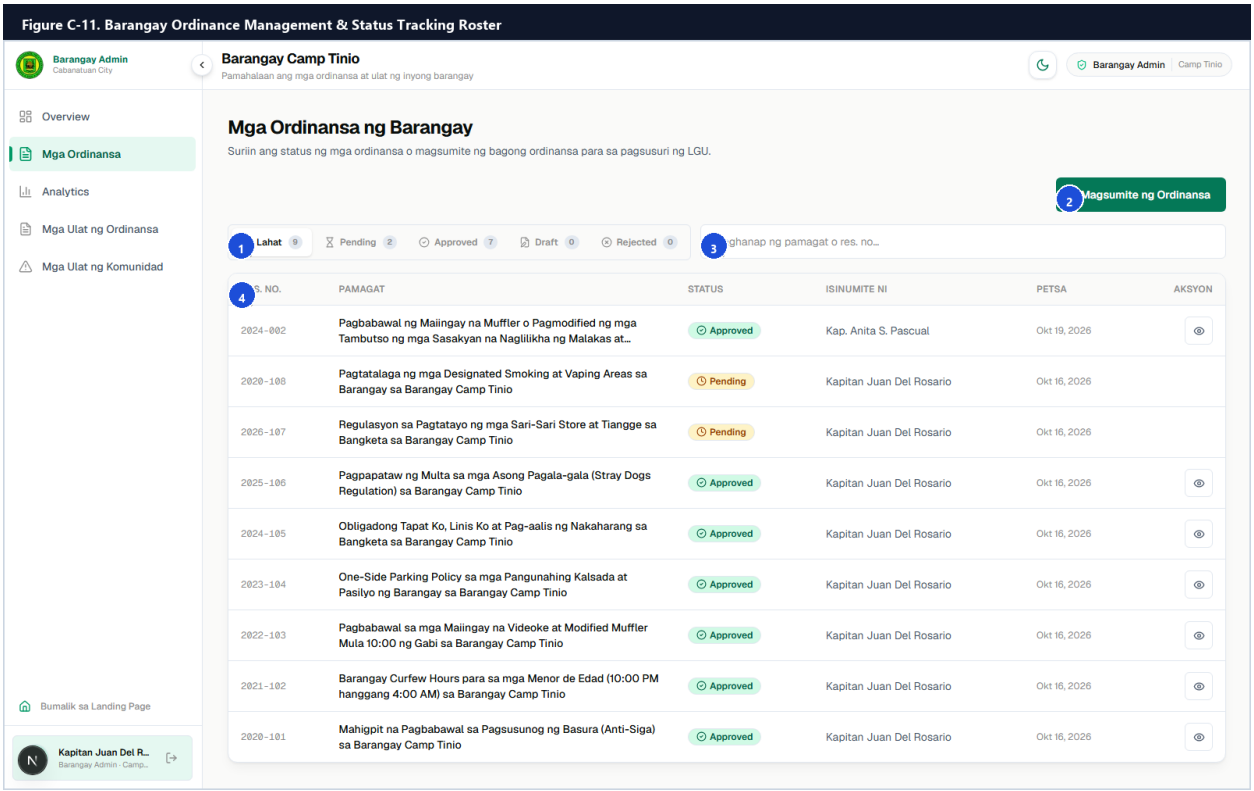

No.	Field, Control, or Area — Detailed Technical Description
4	**Active Community Incident Reports Metric Card —** Actionable alert card displaying the count of open resident grievances requiring barangay officer inspection and resolution.

Barangay Legislative Operations

What the Barangay Ordinance Management & Status Tracking Roster Is For

The Ordinance Management module enables barangay legislative staff to maintain their local resolution records, monitor transmittal progress with the City Council, and initiate new proposals.

Figure C-11.
Barangay Ordinance Management & Status Tracking Roster

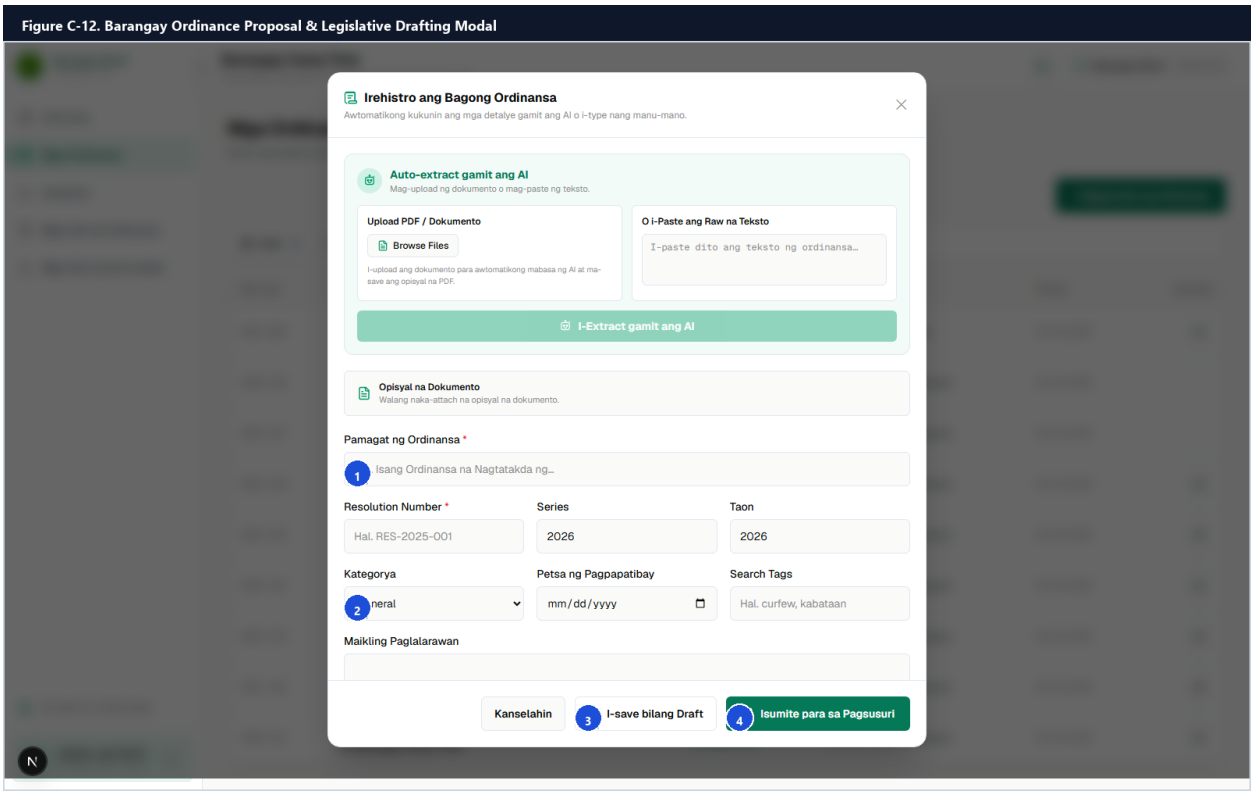

No.	Field, Control, or Area — Detailed Technical Description
1	**Legislative Status Filter Tabs —** Segmented filter tabs filtering local ordinances across 'Lahat' (All), 'Pending' (Under Review), 'Approved' (Enacted), 'Draft', and 'Rejected'.

No.	Field, Control, or Area — Detailed Technical Description
2	**Create / Propose New Ordinance Action Button —** Primary action button opening the full drafting modal to author a new barangay ordinance proposal.
3	**Local Ordinance Keyword Search Input —** Text field allowing secretaries to filter internal records instantly by resolution number, title keywords, or author.
4	**Barangay Ordinance Records Table —** Ledger table listing ordinance number, title, category, enactment date, status badge, and action triggers.

What the Barangay Ordinance Proposal & Legislative Drafting Modal Is For

This modal provides the formal drafting interface for new barangay legislative measures. Secretaries can manually enter legislative details or use integrated AI extraction to digitize existing paper ordinances.

Figure C-12.
Barangay Ordinance Proposal & Legislative Drafting Modal

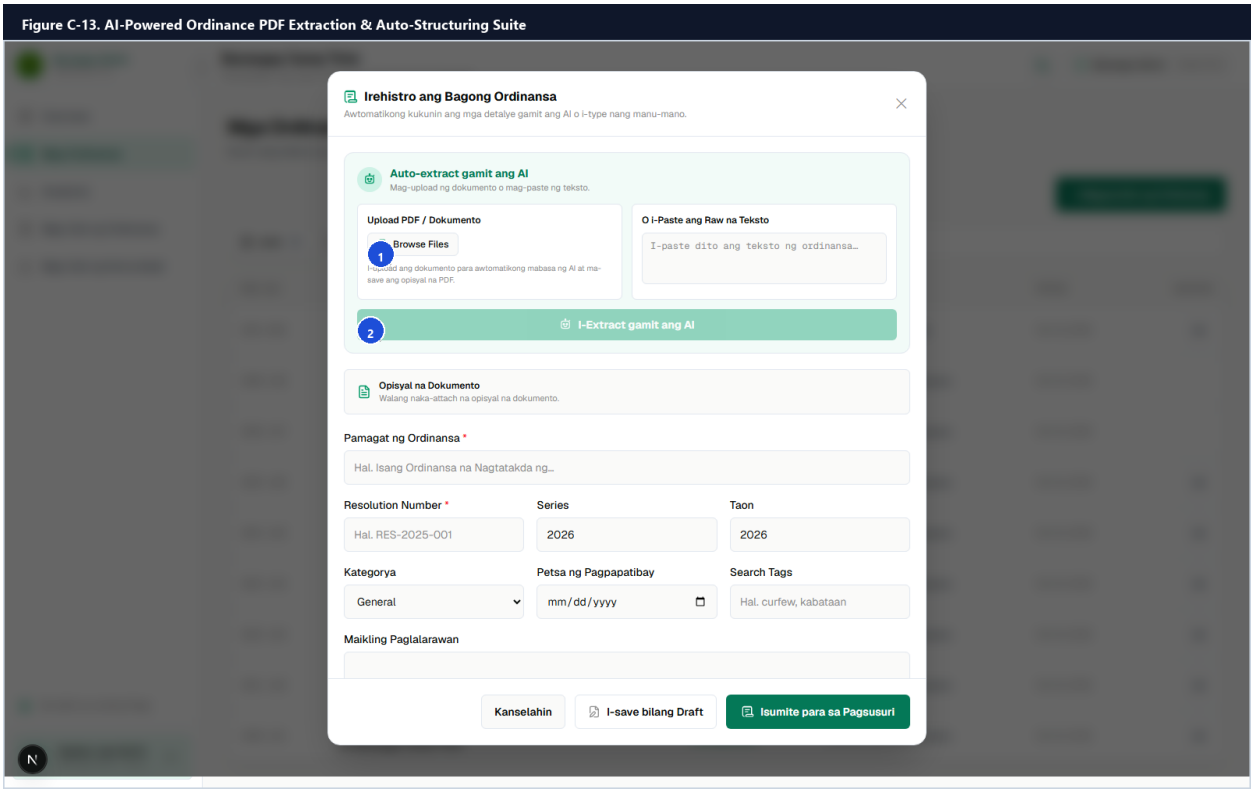

No.	Field, Control, or Area — Detailed Technical Description

No.	Field, Control, or Area — Detailed Technical Description
1	**Proposed Ordinance Title Input Field —** Mandatory form field capturing the formal statutory title of the proposed barangay measure.
2	**Legislative Category Dropdown —** Classification dropdown grouping the proposal under municipal functional sectors (e.g., General, Peace & Order, Sanitation).
3	**Save as Draft Action Button —** Action button saving active form data into editable draft storage for internal review without transmittal to city hall.
4	**Submit to LGU for Approval Button —** Primary transmittal CTA validating statutory requirements and submitting the measure to the Sangguniang Panlungsod.

What the AI-Powered Ordinance PDF Extraction & Auto-Structuring Suite Is For

Eliminating hours of manual re-typing, the AI Document Extraction tool ingests scanned PDF or image copies of physical signed barangay resolutions and automatically extracts structured metadata, articles, and penalties.

Figure C-13.
AI-Powered Ordinance PDF Extraction & Auto-Structuring Suite

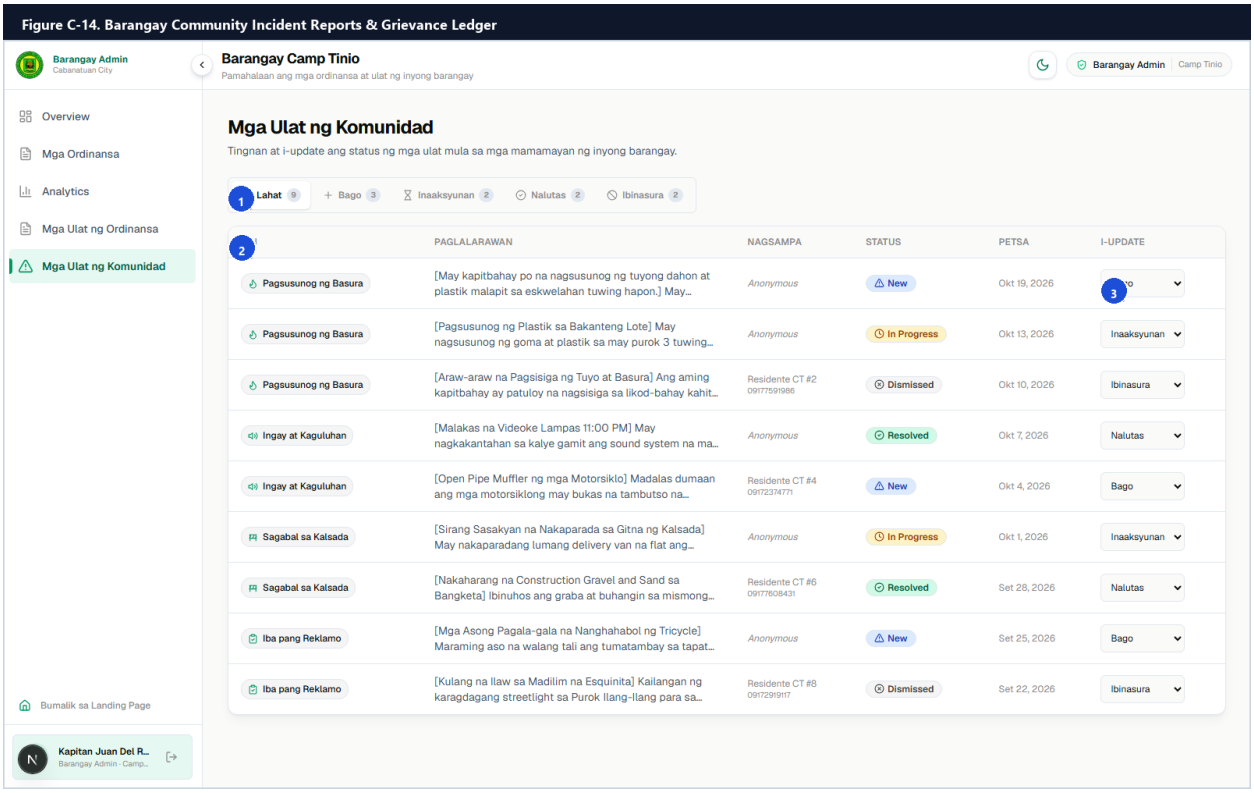

No.	Field, Control, or Area — Detailed Technical Description
1	**Scanned Document PDF / Image File Dropzone —** Interactive dropzone accepting PDF scans and camera images of signed physical barangay council documents.
2	**Execute Multimodal AI Parsing Button —** Execution button dispatching uploaded files to Gemini AI for optical character recognition, article extraction, and penalty parsing.

Barangay Incident Triage & Resolution

What the Barangay Community Incident Reports & Grievance Ledger Is For

The Barangay Community Reports ledger centralizes resident grievances filed through the portal. Officers can monitor incoming complaints, verify complainant details, and assign personnel for field investigation.

Figure C-14.
Barangay Community Incident Reports & Grievance Ledger

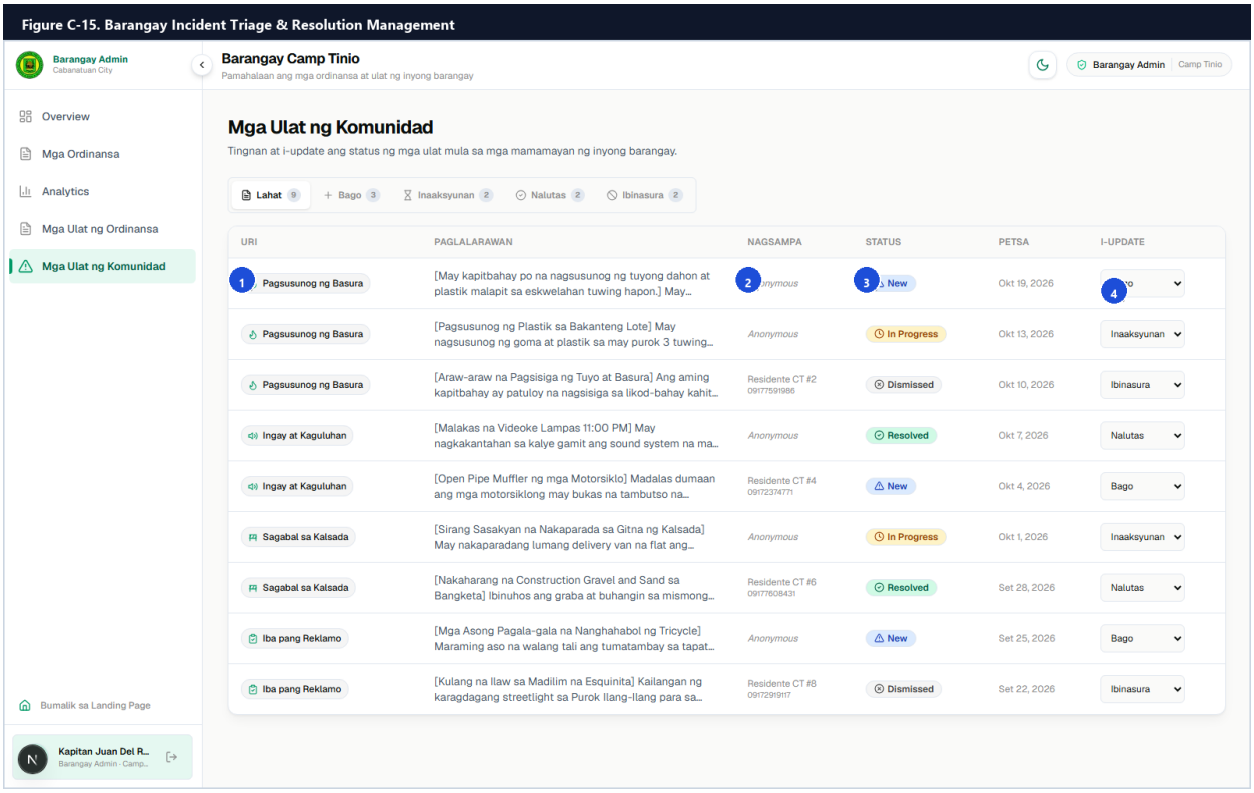

No.	Field, Control, or Area — Detailed Technical Description
1	**Status Filter Tabs —** Filter tabs categorizing reports across 'Lahat' (All), 'Bago' (New), 'Inaaksyunan' (In Progress), 'Nalutas' (Resolved), and 'Ibinasura' (Dismissed).
2	**Incident Reports Records Table —** Master grievances table showing Reference ID, filing date, incident subject, category, reporter classification, and status.
3	**Inline Status Triage & Resolution Dropdown Control —** Direct interactive control on each row allowing officers to update status immediately upon taking action.

What the Barangay Incident Triage & Resolution Management Is For

When addressing resident grievances, officers inspect incident specifics, verify whether the report is anonymous, and record field actions taken by barangay tanods to close out the report.

Figure C-15.

Barangay Incident Triage & Resolution Management

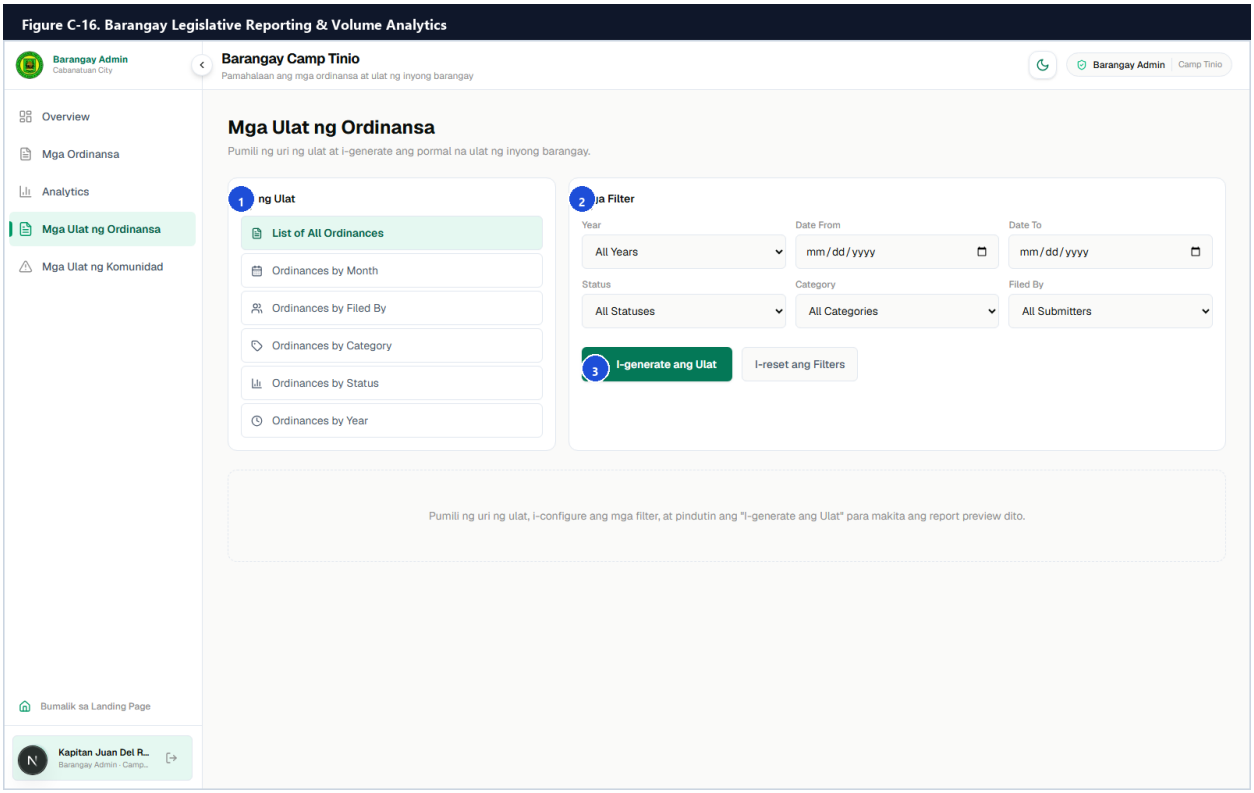

No.	Field, Control, or Area — Detailed Technical Description
1	**Target Incident Report Record Row —** Focused grievance record row highlighting the specific incident being inspected and triaged.
2	**Reporter Information & Anonymity Verification —** Verification column displaying the complainant's identity or affirming protected anonymous whistleblower status.
3	**Current Report Life-Cycle Status Badge —** Visual badge reflecting the current progress of the incident from initial intake through final settlement.
4	**Official Status Mutation & Triage Dropdown Selector —** Dropdown selector executing status changes and updating the citizen tracking state in real time.

Barangay Analytical Intelligence

What the Barangay Legislative Reporting & Volume Analytics Is For

This module aggregates barangay legislative productivity and resident incident patterns into standardized report summaries ready for council review and annual compliance audits.

Figure C-16.
Barangay Legislative Reporting & Volume Analytics

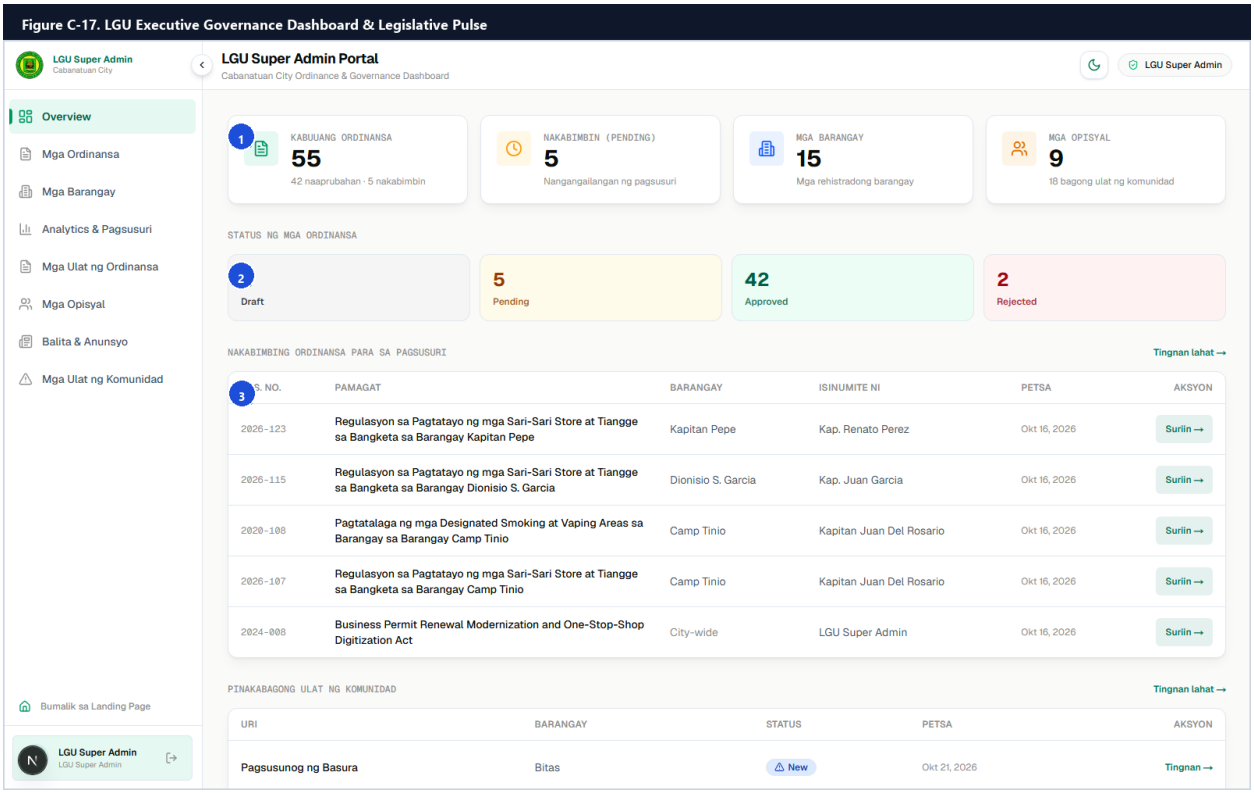

No.	Field, Control, or Area — Detailed Technical Description
1	**Report Type Structure Selector Card —** Selection panel allowing officials to choose standardized report formats including Ordinance Rosters, Category Digests, and Grievance Summaries.
2	**Multi-Criteria Filter Parameters Panel —** Parameters panel configuring date horizons, enactment status, and category filters for the report compilation.
3	**Generate Localized Report Action Button —** Action trigger querying the database and generating a formatted on-screen report preview.

LGU City-Wide Administration

What the LGU Executive Governance Dashboard & Legislative Pulse Is For

The LGU Executive Governance Dashboard serves as the central command console for city-wide legislative oversight. City executives can monitor municipal policy enactment rates, review incoming barangay measures, and assess legislative trends.

Figure C-17.
LGU Executive Governance Dashboard & Legislative Pulse

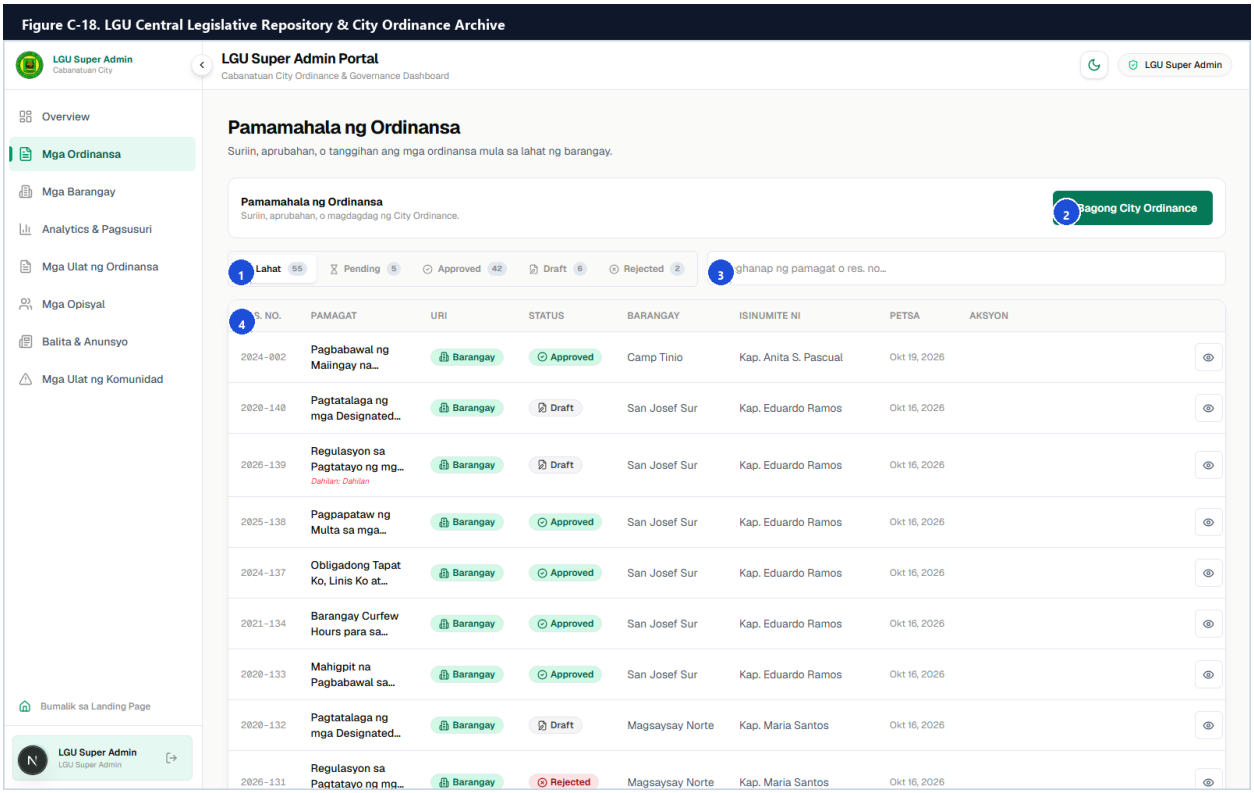

No.	Field, Control, or Area — Detailed Technical Description
1	**City-Wide KPI Cards —** Metric cards tracking aggregate statistics: Total Codified Ordinances, Approved Measures, Pending Review Submissions, Drafts, and Connected Barangays.
2	**Ordinance Status Life-Cycle Summary Grid —** Consolidated breakdown tracking the flow of legislation through drafting, committee evaluation, mayoral review, and public enactment.
3	**Recent City-Wide Legislative Activity Log —** Chronological ledger showcasing newly enacted city policies, transmittal dates, and sponsoring officials.

What the LGU Central Legislative Repository & City Ordinance Archive Is For

The LGU Central Repository is the authoritative master database of all enacted municipal legislation in Cabanatuan City. Administrators manage city-wide enactments, evaluate pending barangay proposals, and codify new measures.

Figure C-18.
LGU Central Legislative Repository & City Ordinance Archive

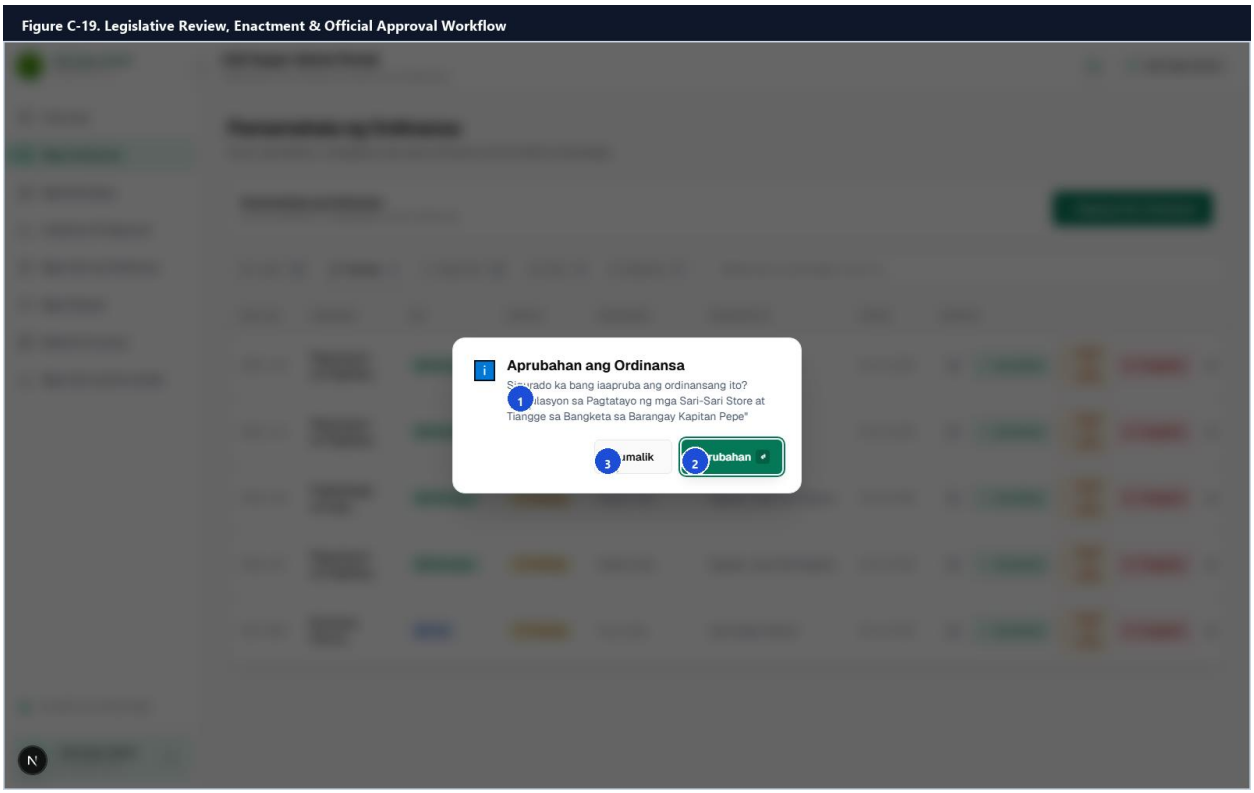

No.	Field, Control, or Area — Detailed Technical Description
1	**Accessible Status Filter Tabs with Live Record Counters —** Filter tabs displaying live record tallies across 'Lahat', 'Enacted', 'In Review', and 'Rejected' ordinances.
2	**Add City Ordinance Action Button —** Primary action button launching the codification workflow for newly enacted Sangguniang Panlungsod city ordinances.
3	**Instant City Ordinance Repository Search Input —** Search field querying central ordinances by title, resolution number, sponsor, or legal summary.
4	**City-Wide Ordinance Repository Master Table —** Master ledger displaying ordinance metadata, jurisdiction tags (City vs Barangay), enactment dates, and administrative action menus.

Legislative Review & Ratification

What the Legislative Review, Enactment & Official Approval Workflow Is For

Under the Local Government Code of 1991 (RA 7160), all barangay ordinances must undergo review by the Sangguniang Panlungsod to confirm statutory compliance. This modal facilitates the formal approval or return of submitted measures.

Figure C-19.
Legislative Review, Enactment & Official Approval Workflow

No.	Field, Control, or Area — Detailed Technical Description
1	**Pending Ordinance Title & Legal Enactment Notice —** Review prompt displaying the title and jurisdiction of the proposed barangay measure undergoing council scrutiny.
2	**Official Enactment / Approval Action Button ('Aprubahan') —** Approval CTA enacting the measure, updating its status to 'Approved', and publishing it directly to the public legal repository.

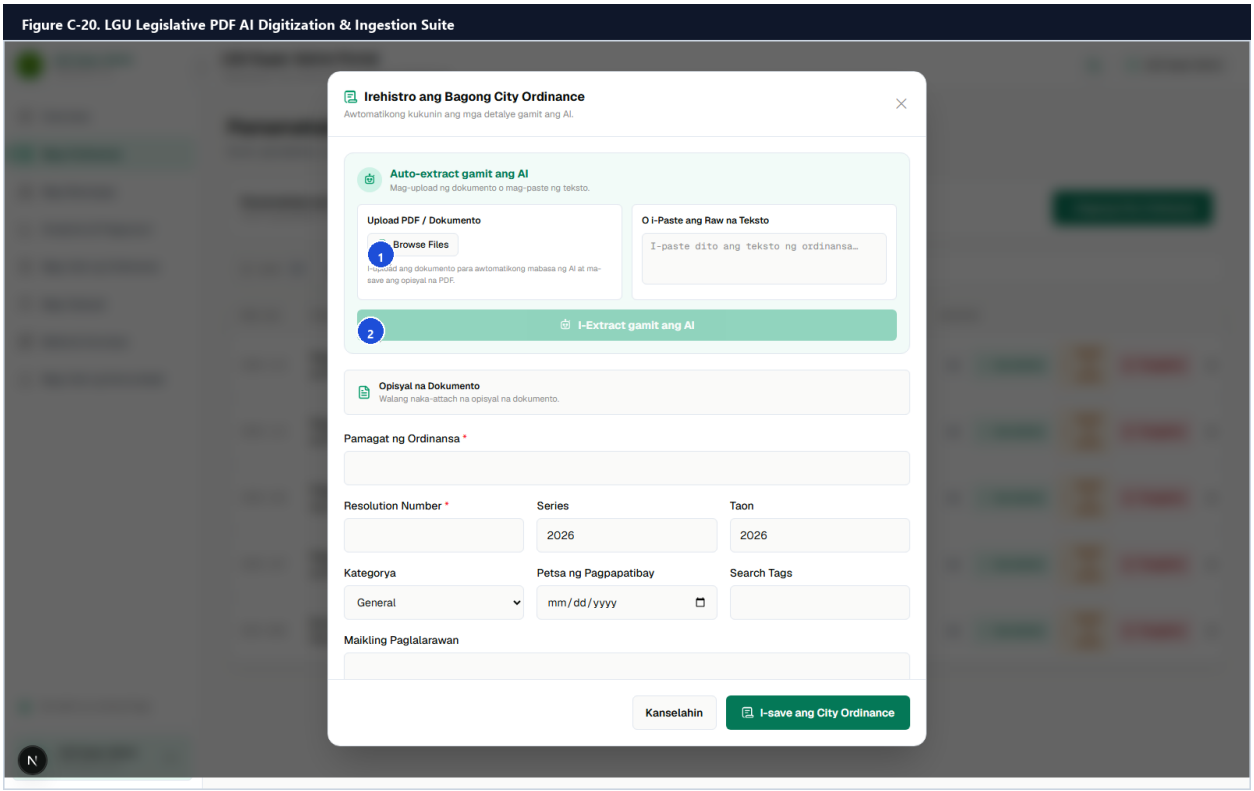

No.	Field, Control, or Area — Detailed Technical Description
3	**Dismiss Review / Return Button ('Bumalik') —** Action button returning the proposal to the originating barangay with feedback for legislative revision.

AI-Powered Archival Digitization

What the LGU Legislative PDF AI Digitization & Ingestion Suite Is For

To digitize historical municipal records and newly signed council resolutions, the LGU ingestion suite processes multi-page scanned PDF documents with Gemini Multimodal AI to extract title, articles, sections, and penalties.

Figure C-20.
LGU Legislative PDF AI Digitization & Ingestion Suite

No.	Field, Control, or Area — Detailed Technical Description
1	**Official Scanned Resolution Upload Dropzone —** Dropzone accepting high-resolution scans of signed municipal resolutions and certified ordinance documents.

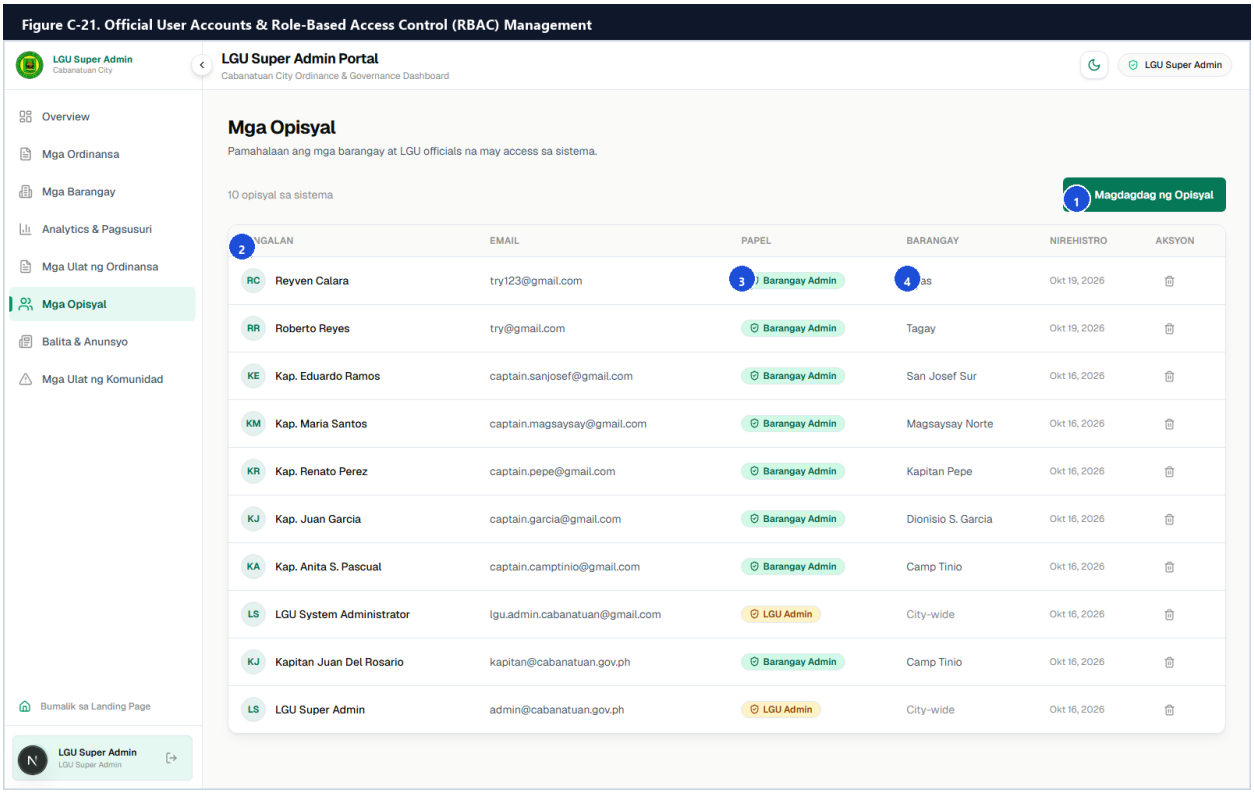

No.	Field, Control, or Area — Detailed Technical Description
2	**Multimodal AI Parsing Execution Button —** Trigger initiating AI optical character recognition, article segmentation, and penalty extraction.

User Administration & Security Governance

What the Official User Accounts & Role-Based Access Control (RBAC) Management Is For

The User Management console oversees municipal user identities and system credentials. Superadministrators provision official accounts for city staff and barangay secretaries, assigning granular permissions.

Figure C-21.
Official User Accounts & Role-Based Access Control (RBAC) Management

No.	Field, Control, or Area — Detailed Technical Description
1	**Register New Official Action Button ('Magdagdag ng Opisyal') —** Action button opening the account creation modal to provision access for new government personnel.

No.	Field, Control, or Area — Detailed Technical Description
2	**Official Directory Table with Security Badges —** Comprehensive roster of registered personnel displaying full name, official email, assigned role, and territory.
3	**Role-Based Privilege Badges —** Visual badges differentiating Super Administrator accounts from localized Barangay Administrator permissions.
4	**Assigned Territorial Barangay Jurisdiction Tag —** Scope tag specifying which of the 89 barangays the official is authorized to administer.

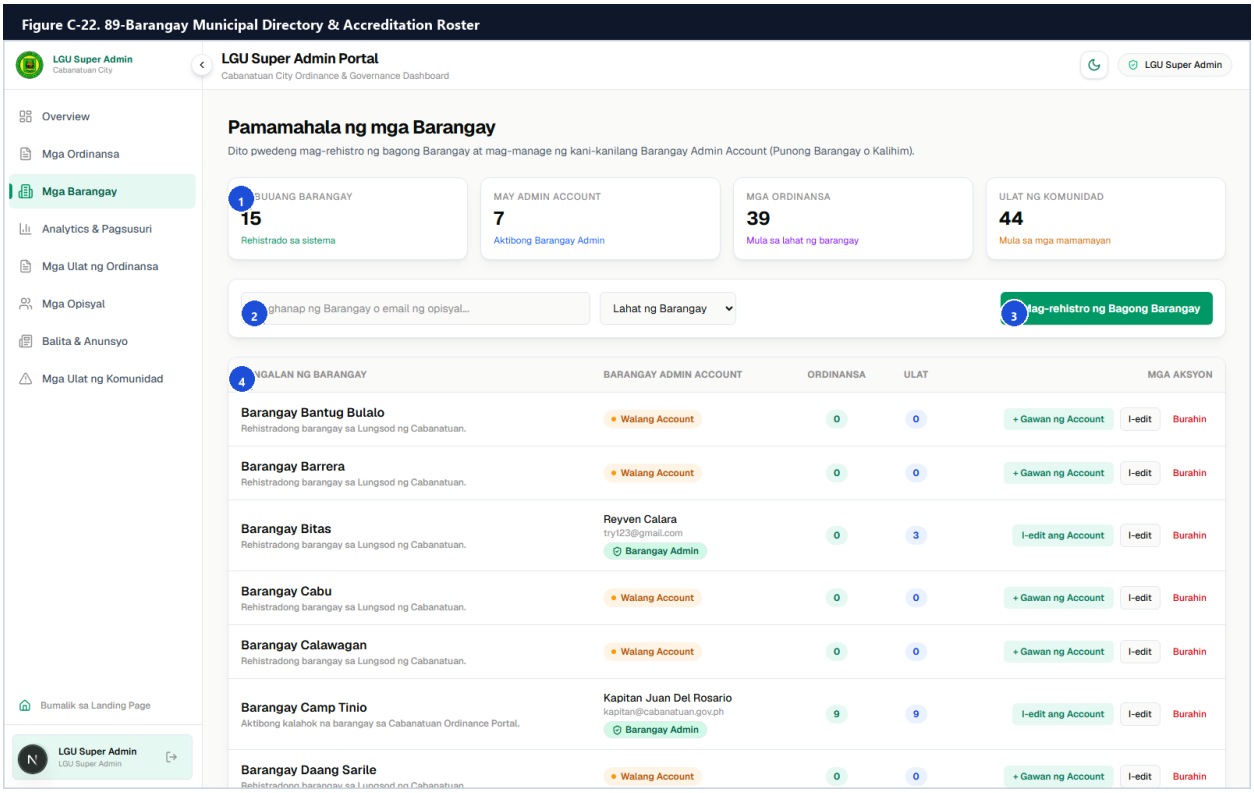

Barangay Accreditation & Directory Oversight

What the 89-Barangay Municipal Directory & Accreditation Roster Is For

The Barangay Directory maintains authoritative records for all 89 political subdivisions of Cabanatuan City. Administrators manage hall contact information, track active officials, and monitor village onboarding.

Figure C-22.

89-Barangay Municipal Directory & Accreditation Roster

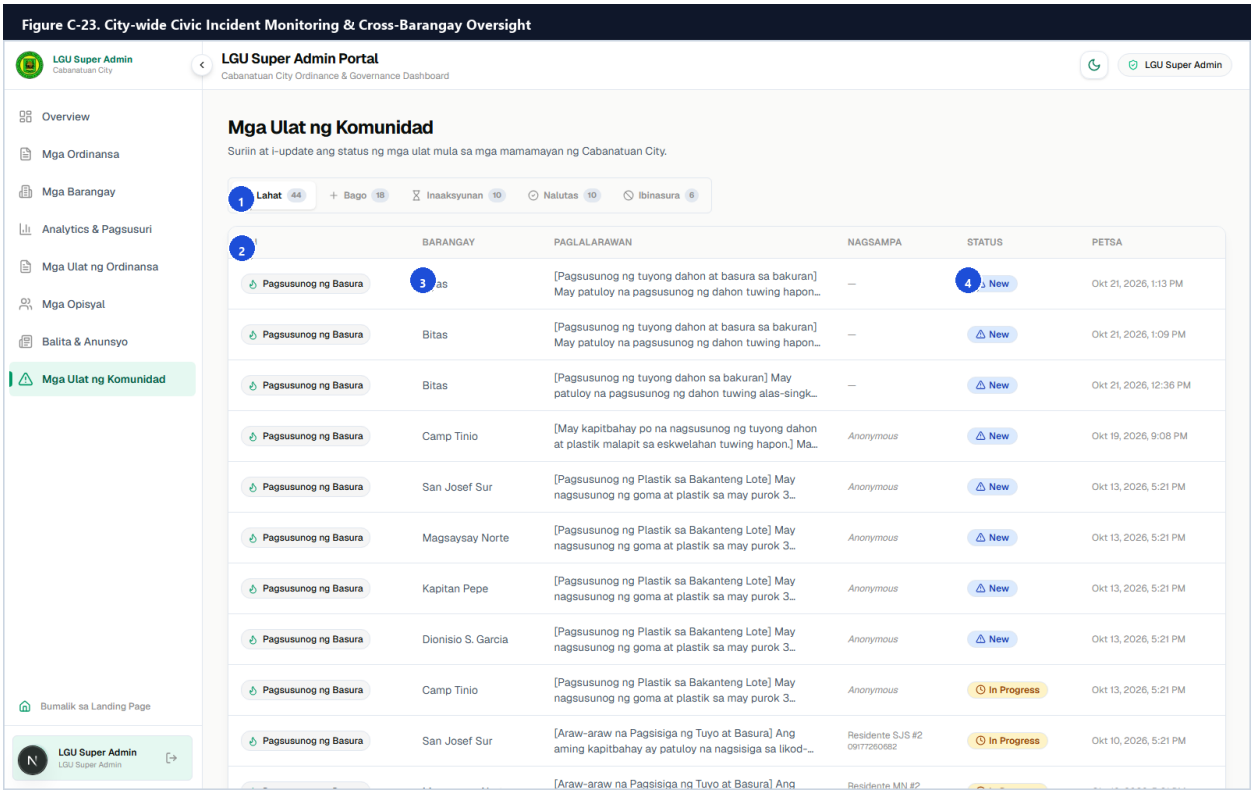

No.	Field, Control, or Area — Detailed Technical Description
1	**Barangay Participation & Onboarding Indicators —** Status banner summarizing onboarding progress and active portal connectivity across city barangays.
2	**Barangay Search & Filter Input Field —** Search filter allowing officers to look up any barangay by name, district zone, or contact person.
3	**Register New Barangay Action Button —** Action button registering a newly accredited barangay or modifying jurisdictional boundaries.
4	**Barangay Directory Table with Ordinance & Report Counts —** Master directory table displaying barangay names, enacted local ordinances, open reports, and contact info.

City-Wide Grievance Monitoring

What the City-wide Civic Incident Monitoring & Cross-Barangay Oversight Is For

This monitoring desk provides city leadership with cross-jurisdictional visibility over all resident grievances filed across the 89 barangays, identifying systemic issues requiring city intervention.

Figure C-23.
City-wide Civic Incident Monitoring & Cross-Barangay Oversight

No.	Field, Control, or Area — Detailed Technical Description
1	**Resolution Status Filter Tabs —** Filter tabs categorizing city grievances across 'Lahat', 'Bago', 'Inaaksyunan', 'Nalutas', and 'Ibinasura'.
2	**Consolidated City-Wide Incident Records Table —** Comprehensive table tracking complaint tracking numbers, filing timestamps, categories, and assigned barangays.
3	**Originating Barangay Jurisdiction Identification —** Jurisdiction column identifying the exact local village where the reported community incident occurred.

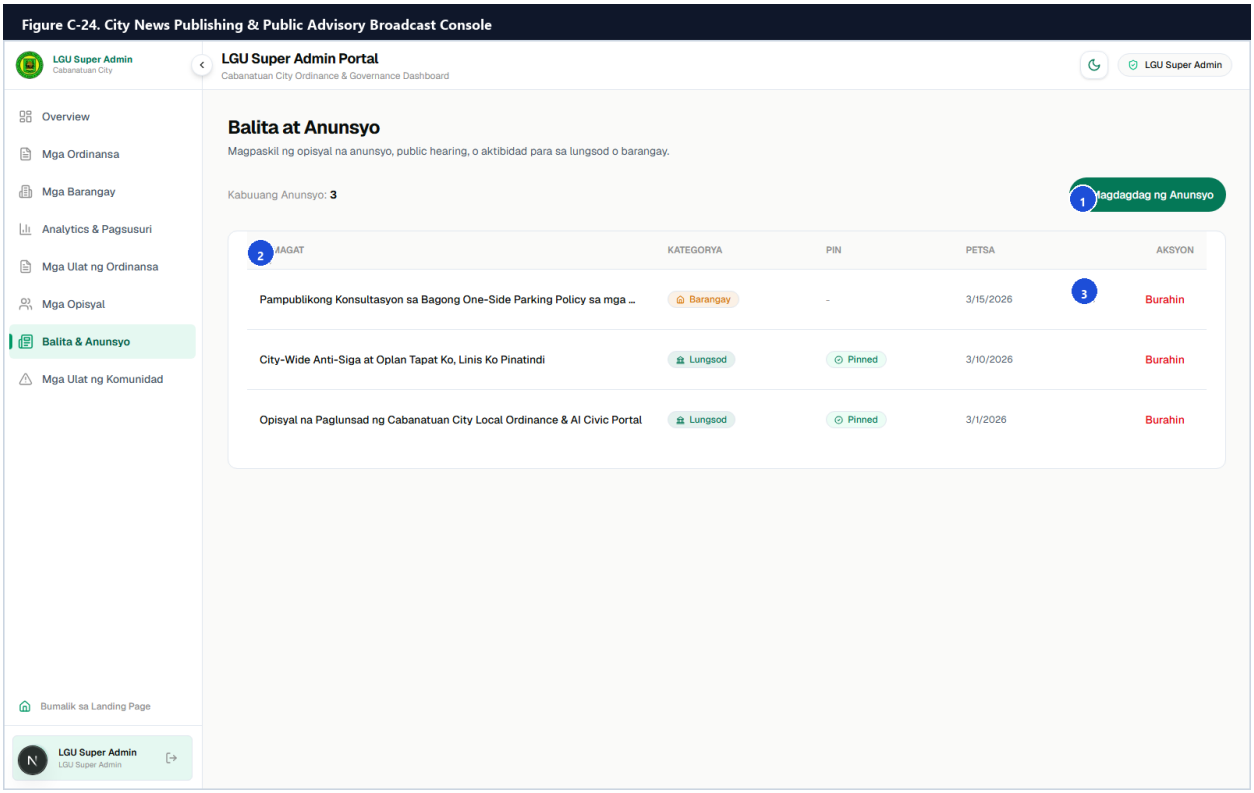

No.	Field, Control, or Area — Detailed Technical Description
4	**Current Operational Resolution Status Badge —** Status badge reflecting whether the local barangay has initiated investigation or resolved the resident complaint.

Civic News & Public Communications Management

What the City News Publishing & Public Advisory Broadcast Console Is For

The News Publishing console provides the City Public Information Office (PIO) with a centralized desk to compose and publish official public advisories, notices of newly enacted legislation, and emergency guidelines.

Figure C-24.
City News Publishing & Public Advisory Broadcast Console

No.	Field, Control, or Area — Detailed Technical Description
1	**Publish New Advisory Action Button ('+ Magdagdag ng Anunsyo') —** Primary call-to-action button opening the advisory drafting form to publish an official municipal announcement.

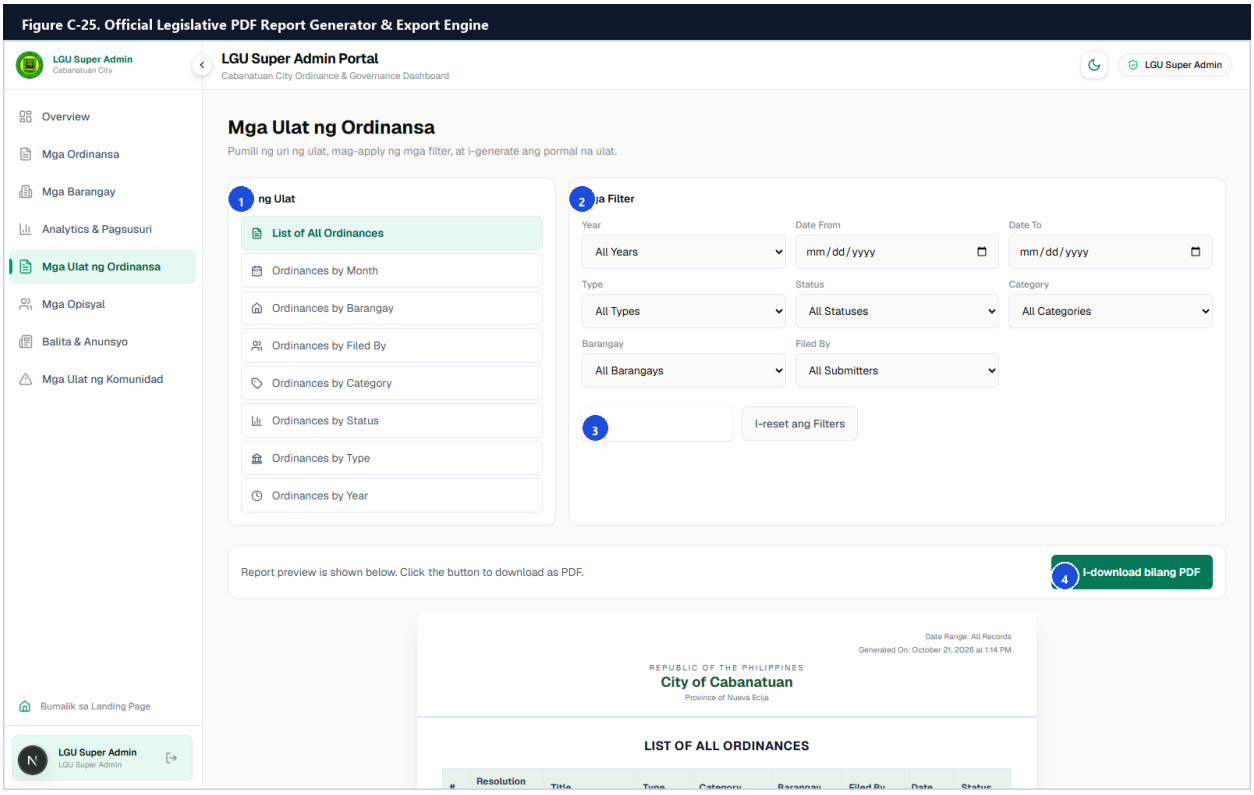

No.	Field, Control, or Area — Detailed Technical Description
2	**Published Public News & Advisories Table —** Archive table listing all published public announcements, publication timestamps, and authoring offices.
3	**Advisory Management Controls —** Action triggers allowing PIO officers to edit broadcast text, manage active status, or unpublish outdated notices.

Legislative Reporting & Certified PDF Generation

What the Official Legislative PDF Report Generator & Export Engine Is For

The Legislative Report Generator compiles comprehensive, certified municipal reports. Officials can generate legislative summaries, compliance digests, or category breakdowns and export them as formal PDF documents.

Figure C-25.
Official Legislative PDF Report Generator & Export Engine

No.	Field, Control, or Area — Detailed Technical Description

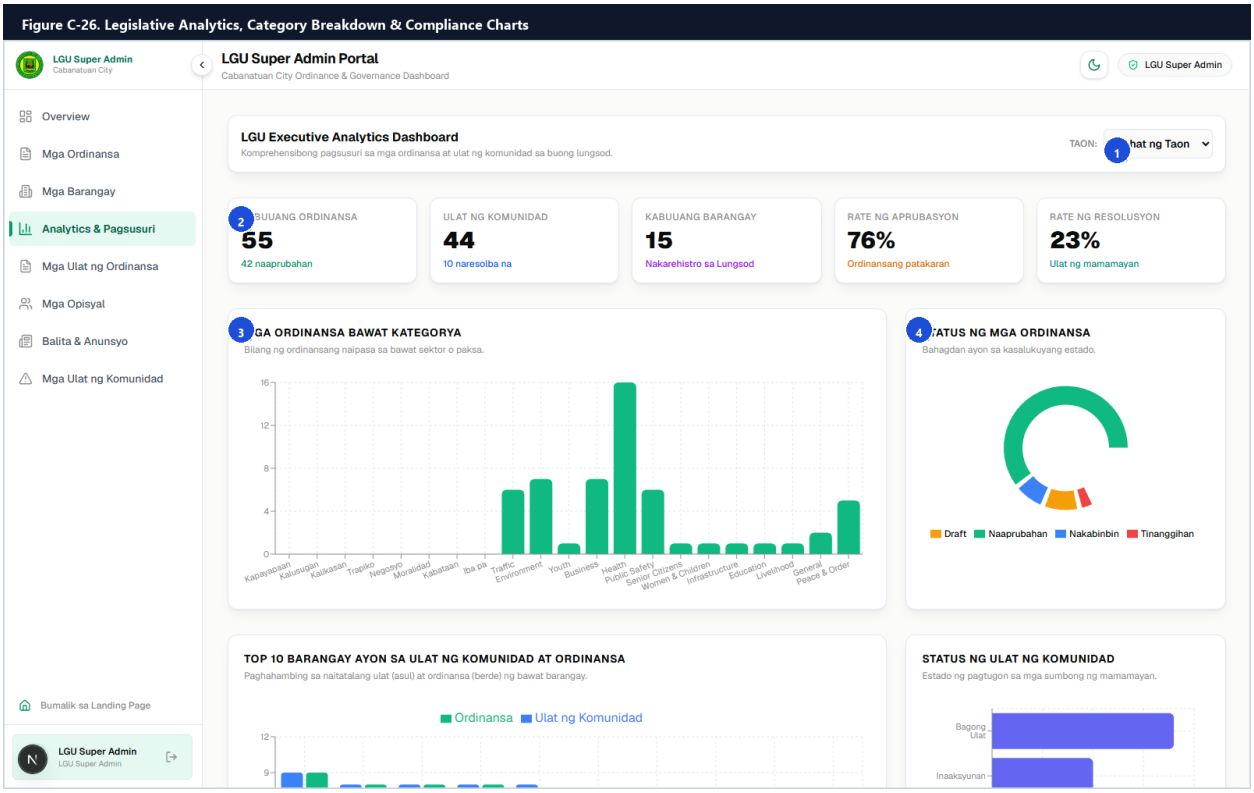

No.	Field, Control, or Area — Detailed Technical Description
1	**Legislative Report Structure Selector Card —** Selection card allowing administrators to choose from 8 standardized report structures (e.g., List of All Ordinances, Ordinances by Month, Ordinances by Category).
2	**Multi-Criteria Filter Parameters Panel —** Configuration panel setting year, date range, status, category, and barangay origin parameters for compilation.
3	**Execute Report Generation Action Button —** Execution trigger querying the database and generating an on-screen preview of the compiled legislative report.
4	**Export Formal PDF Document Action Button ('I-download bilang PDF') —** Action button generating and downloading the certified, print-ready PDF legislative report with official letterhead.

Legislative Analytics & Visual Intelligence

What the Legislative Analytics, Category Breakdown & Compliance Charts Is For

The Legislative Analytics suite provides interactive visual intelligence on municipal policy trends. Executives examine category frequency, approval ratios, and village submission rankings to inform future policy development.

Figure C-26.
Legislative Analytics, Category Breakdown & Compliance Charts

No.	Field, Control, or Area — Detailed Technical Description
1	**Legislative Year Filter Dropdown Selector —** Dropdown menu filtering analytical datasets and charts by calendar or legislative year.
2	**Executive Key Performance Indicators Summary Banner —** Summary banner tracking city-wide legislative output, enactment velocity, and barangay participation metrics.
3	**Policy Category Distribution Breakdown Chart —** Interactive bar chart visualizing the frequency of enacted ordinances across civic policy categories.
4	**Legislative Status Breakdown Distribution Chart —** Donut/pie chart illustrating the proportion of enacted ordinances versus pending proposals and rejected measures.

Summary Checklist of All User Manual Figures

The following master index summarizes all twenty-six (26) user manual figures documented in Appendix C, including their target user roles and primary functional components:

Figure Number	Document Section & Form Name	Primary Target Role	Key Components Covered
Figure C-1	Public Welcome Portal & Legislative Search Gateway	Public / Citizens	Hero Ordinance Search, Search Execution, Ask AI Legal Assistant, Interactive 3D Ordinance Archive Canvas
Figure C-2	Secure Multi-Role Portal Sign-In & Authentication	All Users / Barangay Officials / LGU Superadmins	Official Email Address, Encrypted Password, Sign In Primary Action CTA Button, Quick Role Preset Access Chips
Figure C-3	Public Ordinance Explorer & Multi-Criteria Legal Filtering	Citizens / Public Users	Full-Text Legal Search, Jurisdiction Scope Segmented Switcher, Policy Category Filter, Legislative Enactment Year
Figure C-4	Codified Ordinance Full Text & Articles Viewer	Citizens / Legal Researchers	Official Ordinance Title & Resolution Number, Legislative Metadata Bar, Executive Legal Summary & Plain-Language Digest, View Official Scanned PDF
Figure C-5	Official Legislative PDF Document Reader Modal	Citizens / Legal Clerks	Embedded Digital PDF Document Canvas, Direct PDF File Download, Open in Dedicated Full-Screen Tab Button, Modal Dismiss / Close Action (Esc)
Figure C-6	AI Legal Assistant Interactive Inquiry Console	Citizens / Public Users	Preset Quick Action Inquiry Buttons, Bilingual Question, Send Inquiry Execution, AI Legal Analysis & Verified Citation Feed
Figure C-7	Citizen Community Incident & Violation Reporting Form	Residents / Whistleblowers	Emergency Hotline Numbers Banner, Incident Subject / Title, Assigned Barangay Jurisdiction, Incident Category Selector
Figure C-8	Community Report Submission Confirmation & Incident Reference	Residents / Citizens	Official Submission Confirmation Alert Banner, Draft Auto-Save Status Bar, Reset & Clear Form

Figure Number	Document Section & Form Name	Primary Target Role	Key Components Covered
Figure C-9	Civic News, Public Advisories & Legislative Announcements Feed	Public / Citizens	Official LGU Public Authority Badge, Official Executive Advisory Card, Publication Date & Civic Category Badge, Executive Directive Content Narrative
Figure C-10	Barangay Executive Governance Dashboard	Barangay Captains / Barangay Administrators	Submit New Ordinance Quick, Local Enacted Ordinances Metric Card, Pending Legislative Proposals Metric Card, Active Community Incident Reports Metric Card
Figure C-11	Barangay Ordinance Management & Status Tracking Roster	Barangay Secretaries / Councilors	Legislative Status Filter Tabs, Create / Propose New Ordinance, Local Ordinance Keyword Search Input, Barangay Ordinance Records Table
Figure C-12	Barangay Ordinance Proposal & Legislative Drafting Modal	Barangay Secretaries / Committee Chairs	Proposed Ordinance Title, Legislative Category, Save as Draft, Submit to LGU for Approval Button
Figure C-13	AI-Powered Ordinance PDF Extraction & Auto-Structuring Suite	Barangay Secretaries / Digitization Clerks	Scanned Document PDF / Image File Dropzone, Execute Multimodal AI Parsing Button
Figure C-14	Barangay Community Incident Reports & Grievance Ledger	Barangay Peace & Order Officers / Tanods	Status Filter Tabs, Incident Reports Records Table, Inline Status Triage & Resolution Control
Figure C-15	Barangay Incident Triage & Resolution Management	Barangay Desk Officers / Kagawads	Target Incident Report Record Row, Reporter Information & Anonymity Verification, Current Report Life-Cycle Status Badge, Official Status Mutation & Triage Selector
Figure C-16	Barangay Legislative Reporting & Volume Analytics	Barangay Captains / Council Secretaries	Report Type Structure Selector Card, Multi-Criteria Filter Parameters Panel, Generate Localized Report
Figure C-17	LGU Executive Governance Dashboard & Legislative Pulse	City Mayor / SP Presiding Officer / SuperAdmins	City-Wide KPI Cards, Ordinance Status Life-Cycle Summary Grid, Recent City-Wide Legislative Activity Log

Figure Number	Document Section & Form Name	Primary Target Role	Key Components Covered
Figure C-18	LGU Central Legislative Repository & City Ordinance Archive	Sangguniang Panlungsod Legal Clerks / SuperAdmins	Accessible Status Filter Tabs with Live Record Counters, Add City Ordinance, Instant City Ordinance Repository Search Input, City-Wide Ordinance Repository Master Table
Figure C-19	Legislative Review, Enactment & Official Approval Workflow	Sangguniang Panlungsod Review Committee / City Council	Pending Ordinance Title & Legal Enactment Notice, Official Enactment / Approval ('Aprubahan'), Dismiss Review / Return Button ('Bumalik')
Figure C-20	LGU Legislative PDF AI Digitization & Ingestion Suite	City Legal Codifiers / Archival Staff	Official Scanned Resolution Upload Dropzone, Multimodal AI Parsing Execution Button
Figure C-21	Official User Accounts & Role-Based Access Control (RBAC) Management	Super Administrators / IT Governance	Register New Official ('Magdagdag ng Opisyal'), Official Directory Table with Security Badges, Role-Based Privilege Badges, Assigned Territorial Barangay Jurisdiction Tag
Figure C-22	89-Barangay Municipal Directory & Accreditation Roster	LGU Executive Staff / DILG Officers	Barangay Participation & Onboarding Indicators, Barangay Search & Filter, Register New Barangay, Barangay Directory Table with Ordinance & Report Counts
Figure C-23	City-wide Civic Incident Monitoring & Cross-Barangay Oversight	City Mayor's Action Center / CDRRMO / SuperAdmins	Resolution Status Filter Tabs, Consolidated City-Wide Incident Records Table, Originating Barangay Jurisdiction Identification, Current Operational Resolution Status Badge
Figure C-24	City News Publishing & Public Advisory Broadcast Console	City Public Information Office (PIO) / SuperAdmins	Publish New Advisory ('+ Magdagdag ng Anunsyo'), Published Public News & Advisories Table, Advisory Management Controls
Figure C-25	Official Legislative PDF Report Generator & Export Engine	Sangguniang Panlungsod Secretariat / Legal Researchers	Legislative Report Structure Selector Card, Multi-Criteria Filter Parameters Panel, Execute Report Generation, Export Formal PDF Document ('I-download bilang PDF')

Figure Number	Document Section & Form Name	Primary Target Role	Key Components Covered
Figure C-26	Legislative Analytics, Category Breakdown & Compliance Charts	City Mayor / SP Committee on Laws / SuperAdmins	Legislative Year Filter Selector, Executive Key Performance Indicators Summary Banner, Policy Category Distribution Breakdown Chart, Legislative Status Breakdown Distribution Chart
